Traffic Signs

Traffic signs for a transportation-themed playground

Recycled HDPE:

Steel:

Ages 2-5

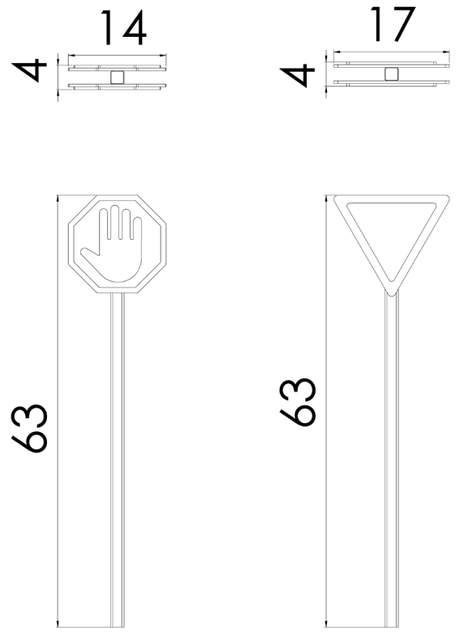
Users 2

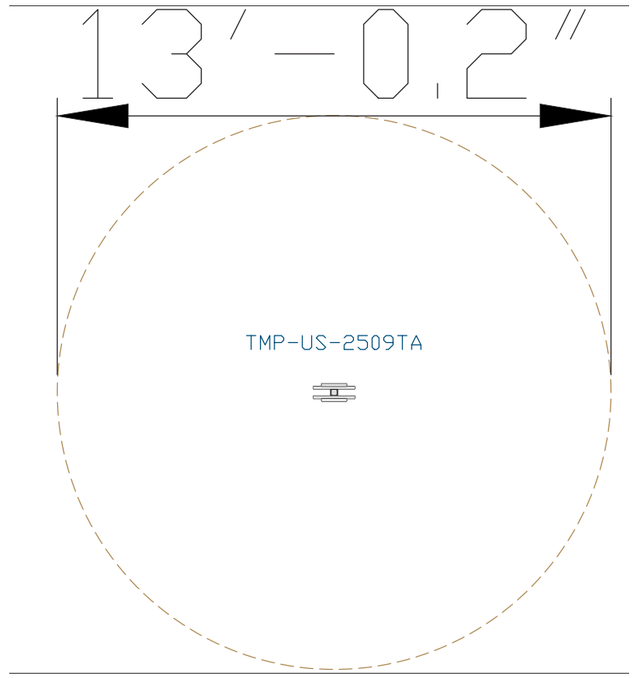
Dimensions L: 1'-4.5" W: 4.6" H: 5'-1.4" | cm L: 43 W: 12 H: 160

Safety Zone 13'-0.2" | cm 396

Accessible

Traffic signs for social play and imagination activation. Children can feel like they're on the adults' road and learn the meaning of traffic signs in the real world.





Recycled HDPE

HDPE (High-Density Polyethylene) is a recycled material made from high-density polyethylene, produced from recycled materials that allows for further recycling. It excels in resistance to UV rays and wear and tear, making it particularly suitable for use in outdoor playground equipment. Its touch is smooth and pleasant, and its appearance is maintained over time. The advantages include high resistance to harsh weather conditions and environmental preservation. The material is capable of absorbing high energy, which helps prevent fractures.

Steel

Steel structure that is strong and durable, oven-painted galvanized and coated with lead-free polyester powder for corrosion and rust resistance. The steel meets strict EN 1176 standards, ensuring high quality and safety. The steel is anti-vandalistic, requires minimal maintenance, and is fully recyclable. The high-quality paint ensures weather resistance and maintains a new appearance over time.
