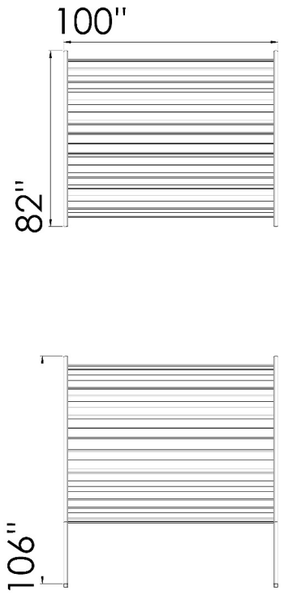
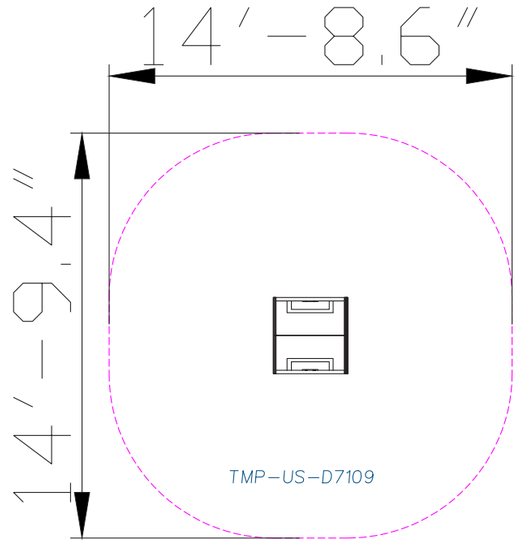
Safety Zone 14'-9.4"/14'-9.4"| 451 / 451 cm

The crawling tunnel is designed for dog training and agility exercises, allowing dogs to crawl through the structure as part of their play routine. Built with powder-coated steel and premium pinewood, the tunnel is smooth and durable, offering a safe and enjoyable training experience for dogs. The structure is crafted with high-quality non-toxic paint and treated wood to prevent splinters.





Robinia Wood

European Robinia wood is natural, robust, and durable, particularly suitable for use in outdoor playground equipment. It complies with stringent standards such as FSC, has a smooth and pleasant touch, a natural and authentic appearance, and integrates well with natural surroundings. Its high durability, long lifespan, and being a natural and safe material make it a popular choice for use in playground equipment.

Steel

Steel structure that is strong and durable, oven-painted galvanized and coated with lead-free polyester powder for corrosion and rust resistance. The steel meets strict EN 1176 and MATI 1498/1497 standards, ensuring high quality and safety. The steel is anti-vandalistic, requires minimal maintenance, and is fully recyclable. The high-quality paint ensures weather resistance and maintains a new appearance over time.
