

# WHISKEY

Bar & Museum

The Whiskey Bar & Museum is one of the largest complexes of its kind anywhere in the world, combining a bar-restaurant and a whiskey museum in one unique location. Located in Sarona's historic Templer tunnel, which was home to a local winery in the 19th century and until a decade ago, served the covert needs of the Mossad.

---

Our walls are lined with more than 1,600 whiskey varieties that were handpicked from more than 19 countries from around the world. Every bottle in the Museum is available for tasting and purchasing.

---

The bar-restaurant's modern kitchen offers dishes specifically designed to accentuate whiskey flavors while suiting the ambiance of this unusual setting. They include delicious cuts of smoked meat, vegan dishes, appetizers and tempting desserts made by our pastry chefs right on the premises.

# THERE'S ALWAYS TIME FOR A GLASS OF WINE
