Climbing

Ages 5-12

Users 66

Dimensions L: 44'-9.6" W: 44'-4.9" H: 25'-6.8" | cm L: 995 W: 995 H: 799

Safety Zone R44'-7.9" | cm R1358.9

Fall Height 9.6' | 300 cm

Accessible

This large extreme pyramid-shaped structure is made of galvanized steel with crisscrossing cables for difficult climbing. It challenges and develops arm and leg muscles, concentration, and patience, offering numerous climbing options both vertically and horizontally while allowing for controlled risk-taking and overcoming fear.

Rope Cables

Rope Cables are made of synthetic polypropylene (PP) fibers combined with a galvanized steel core for improved strength and durability. They meet strict standards, such as ASTM A240 and EN 10088, ensuring durability and safety for use in playground equipment. The cables offer a soft and pleasant touch that does not harm the hands during use and are available in various diameters and colors, allowing for creative and aesthetic design.

Steel

Steel structure that is strong and durable, oven-painted galvanized and coated with lead-free polyester powder for corrosion and rust resistance. The steel meets strict EN 1176 standards, ensuring high quality and safety. The steel is anti-vandalistic, requires minimal maintenance, and is fully recyclable. The high-quality paint ensures weather resistance and maintains a new appearance over time.
