HPL: 

Balancing

Climbing

Sliding

Ages 5-12

Users 56

Dimensions L: 14'-7.1" W: 41'-9.9" H: 19'-2.4" | cm L: 456 W: 1307 H: 600

Safety Zone 57'-2.3"/27'-0.5" | cm 1742.44 / 822.96

Fall Height 6.72' | 210 cm

Accessible

The Balloons 1 is designed as a magical hot air balloon. Its base is a multi level play system with 6 levels and includes a tube slide, a straight slide and a toddler slide, a climbing wall, a rope ladder for climbing, accessible stairs, a balcony, and 2 play panels. At the top of the structure is a giant hot air balloon dome. The play system is suitable for imagination and journey games and for physical activities such as climbing, movement, and sliding. It develops curiosity and creativity through the special design experience, and spatial perception, orientation, and motor control through the rich internal designs.

HPL

HPL panels are high-pressure laminate boards produced by saturating multiple layers of kraft paper with phenolic resin. These panels offer high resistance to abrasion, scratches, and chemical impacts, maintaining their quality in both outdoor and indoor conditions. Available in a variety of colors and textures, HPL panels are used for surfaces, walls, and furniture in playground equipment, providing an aesthetic appearance and requiring low maintenance.

Steel

Steel structure that is strong and durable, oven-painted galvanized and coated with lead-free polyester powder for corrosion and rust resistance. The steel meets strict EN 1176 standards, ensuring high quality and safety. The steel is anti-vandalistic, requires minimal maintenance, and is fully recyclable. The high-quality paint ensures weather resistance and maintains a new appearance over time.

Hot Air Balloon Roof

This special roof encourages players to dream big and soar high in their imagination, just like a hot air balloon. The hot air balloon inspires and invokes a sense of adventure as players experience the play structure as a magical and fascinating place, enriching their play experience and encouraging them to aim high.

Climbing Wall

The climbing wall offers a physical challenge that develops the muscle strength, coordination and weight of the players. Climbing the wall improves their problem solving. This is a place where players overcome fears and develop courage and self-confidence.

Designed Climbing Element

The designed climbing element combines physical challenge with a unique and inviting design. Players develop physical skills such as strength, coordination, and balance while playing in a creative and designed environment. The unique design encourages players to play and explore, fostering their imagination and creativity.

Transparent Slide Sections

Transparent slide sections add an interesting visual element to slides. The transparency of the sections allows for maintaining eye contact between the companion and the player during the slide, enhancing the sense of security and comfort for both parties. The transparent sections provide a unique and enjoyable sliding experience while maintaining a sense of connection and safety.

Moving Game

The moving game provides dynamic activity that develops players' coordination, strength, and motor skills.

Ventilated Panel

The ventilated panel offers an activity that stimulates the sense of touch and provides a feeling of wind and freshness. Playing with the panel develops players' motor and sensory skills.

Play Panel

The play panel provides a variety of interactive play options that develop players' motor and cognitive skills. Each panel offers a unique activity that stimulates thinking and encourages players to learn and discover more.

Toddler Slide

The toddler slide provides a safe and enjoyable sliding experience for little ones. It develops coordination, movement, balance, and self-confidence for young players.

Motor Development

Hand-eye coordination - Developing coordination and precision in activities requiring fine motor skills.

Cognitive Development

Curiosity - Encouraging exploration and discovery through equipment providing new and unfamiliar experiences. Creativity- Developing creative thinking and imagination in open and interactive play.

Emotional Development

Imagination- Encouraging imagination and creating play worlds. Courage- Facing fears and new challenges. Confidence- Building self-confidence and belief in one's personal abilities. Independence- Developing independence and the ability to make personal decisions.

Physical Development

Climbing - Strengthening arm and leg muscles, developing fitness and endurance. Sliding - Strengthening leg and arm muscles and improving coordination. Balancing- Improving balance and posture.
