## Hammock Robinia

The Robinia hammock combines a sturdy wooden frame with a durable polyamide-coated steel mesh, offering a comfortable and relaxing swinging experience. The swing features a dual-axis pivot for smooth and secure motion, suitable for children and adults alike. It's the perfect spot to unwind and savor the moment, while maintaining both comfort and safety.

### Emotional Development

Courage- Facing fears and new challenges. Confidence- Building self-confidence and belief in one's personal abilities.

### Physical Development

Balancing- Improving balance and posture. Swinging - Strengthening core muscles and enhancing the sense of movement.

### Robinia Wood

European Robinia wood is natural, robust, and durable, particularly suitable for use in outdoor playground equipment. It complies with stringent standards such as FSC, has a smooth and pleasant touch, a natural and authentic appearance, and integrates well with natural surroundings. Its high durability, long lifespan, and being a natural and safe material make it a popular choice for use in playground equipment.

### Rope Cables

Rope Cables are made of synthetic polypropylene (PP) fibers combined with a galvanized steel core for improved strength and durability. They meet strict standards such as MATI 1498/1497, ASTM A240, and EN 10088, ensuring durability and safety for use in playground equipment. The cables offer a soft and pleasant touch that does not harm the hands during use and are available in various diameters and colors, allowing for creative and aesthetic design.

### Hammock

The hammock offers players a relaxing and comfortable place to swing, while developing motor skills and balance. Playing in the hammock encourages a sense of calm and security, providing an opportunity for players to unwind and connect with their surroundings interactively.

### Bearings

Bearings provide smooth and supported internal movement for the element. They ensure smooth and safe movements, enhancing the play experience by reducing friction and effort.
