Jumping

 Ages 5-12

 Users 66

 Dimensions L: 19'-2.4" W: 17'-7.2" H: 17'-5.7" | cm L: 600 W: 550 H: 546

 Safety Zone 45'-11.8"/33'-9.8" | 1400 / 1029 cm

 Fall Height 9'-3.4" | 290 cm

 Accessible

The Frankfort is a large HDPE play system featuring three square towers of varying heights with diverse climbing elements, a closed tube slide, an open curved slide, and an accessible toddler slide.

The structure also incorporates crawling tunnels for passage from tower to tower and play panels. It encourages social interaction, develops arm and leg muscles, self-confidence and independence, and coping with fear of heights in a protected environment.

Recycled HDPE

HDPE (High-Density Polyethylene) is a recycled material made from high-density polyethylene, produced from recycled materials that allows for further recycling. It excels in resistance to UV rays and wear and tear, making it particularly suitable for use in outdoor playground equipment. Its touch is smooth and pleasant, and its appearance is maintained over time. The advantages include high resistance to harsh weather conditions and environmental preservation. The material is capable of absorbing high energy, which helps prevent fractures.

Steel

Steel structure that is strong and durable, oven-painted galvanized and coated with lead-free polyester powder for corrosion and rust resistance.

The steel meets strict EN 1176 standards, ensuring high quality and safety.

The steel is anti-vandalistic, requires minimal maintenance, and is fully recyclable.

The high-quality paint ensures weather resistance and maintains a new appearance over time.

Designed Panel

The designed panel adds an aesthetic and unique dimension to the playground equipment, enhancing the overall play experience. The panel allows players to feel part of a creative and imaginative world, designed to align with the narrative of the playground. The design ensures easy and safe access to play activities, while maintaining a sense of security and enjoyment.

Crawl Tunnel

The crawl tunnel offers a physical challenge that develops players' motor skills, coordination, and balance. Players crawl through the tunnel and enjoy the sense of wonder and excitement as they enter from one side and exit from the other. Playing in the tunnel encourages exploration, daring, and self-confidence while maintaining a safe and enjoyable environment.

Slide

A slide is a fundamental and important element in any playground, considered one of the leading and most beloved attractions for players of all ages. The slide provides an enjoyable and exciting sliding experience that develops players' motor skills and coordination. Playing on the slide encourages movement, daring, and self-confidence.

Play Panel

The play panel provides a variety of interactive play options that develop players' motor and cognitive skills. Each panel offers a unique activity that stimulates thinking and encourages players to learn and discover more.

Barrel Slide

The barrel slide provides an exciting and challenging sliding experience, combining movement with a sense of adventure. Sliding in this slide develops players' motor skills and coordination as they move through the tube at varying speeds. The sliding action boosts self-confidence and encourages daring as players face the challenge of fast movement. The slide is a fundamental and important element in any playground and is considered one of the leading and most beloved attractions for players of all ages.

Clear Bubble

The clear bubble offers a unique vantage point, allowing players to see their surroundings from a different perspective, maintaining eye contact between the companion and the player and ensuring continuous, safe communication. The clear bubble enhances the sense of security for players and companions, especially in cases of young children needing support and supervision during play.

Climbing Element

The climbing element offers a physical challenge that develops muscle strength, coordination, and balance. Climbing on the element encourages children to overcome fears and build self-confidence and perseverance. Additionally, the element helps develop problem-solving skills as children look for efficient and safe ways to climb.

Play Panel

The play panel provides a variety of interactive play options that develop players' motor and cognitive skills. Each panel offers a unique activity that stimulates thinking and encourages players to learn and discover more.

Physical Development

Climbing - Strengthening arm and leg muscles, developing fitness and endurance
 Crawling - Strengthening abdominal and back muscles, improving coordination and flexibility.
 Sliding - Strengthening leg and arm muscles and improving coordination.

Cognitive Development

Spatial awareness- Improving the ability to understand and navigate space through mazes and courses.
 Curiosity - Encouraging exploration and discovery through equipment providing new and unfamiliar experiences.
 Creativity- Developing creative thinking and imagination in open and interactive play.

Emotional Development

Imagination- Encouraging imagination and creating play worlds.
 Confidence- Building self-confidence and belief in one's personal abilities.
 Independence- Developing independence and the ability to make personal decisions.

Motor Development

Foot-eye coordination - Improving coordination and balance through various equipment.
 Core muscle strengthening- Strengthening abdominal and back muscles through challenging equipment.

Social Development

Respect for boundaries- Learning the importance of respecting personal and social boundaries.
 Friendship creation- Creating friendships and strengthening social bonds.
