Bullseye Spring

A spring-based play structure made of a rope nest seat mounted on 4 springs for maximum rocking. The seat is large and spacious, suitable for several users simultaneously in standing, sitting, or lying positions. Develops balance, self-confidence, and communication skills.

Rope Cables: 
 Steel: 

Springy Mat

The springy mat encourages players to jump and move. Playing on the springy mat develops players' strength, coordination, and balance.

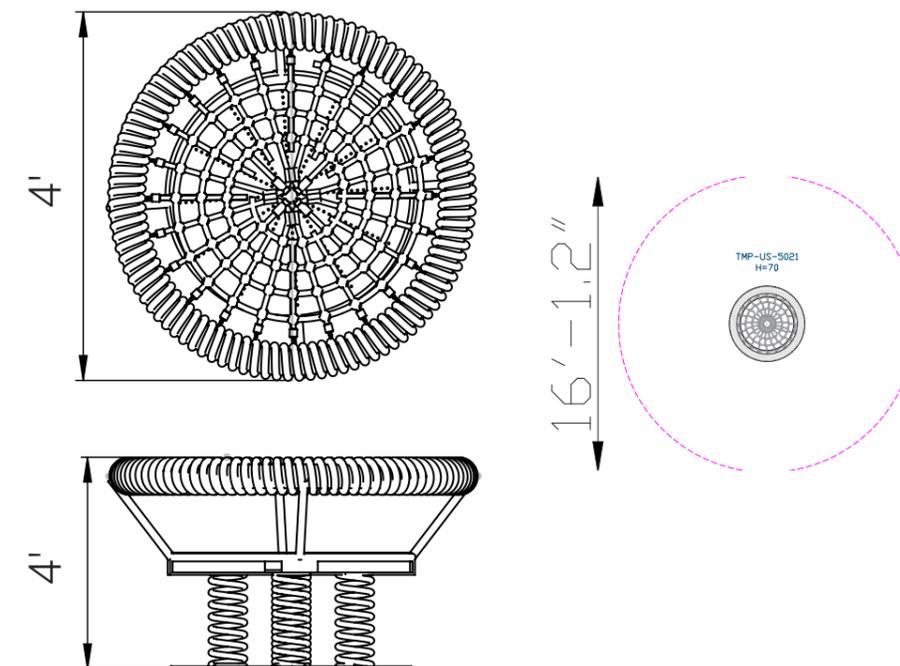

Spinning Top

The spinning top offers an exciting and challenging spinning experience that develops players' motor skills and balance. Playing with the spinning top encourages movement, coordination, and self-confidence.

Springs

The springs are made of high-quality, durable materials, designed safely without pinching or entrapments. They allow for movement and rocking games, developing motor skills, spatial awareness, and a sense of balance.

Steel

Steel structure that is strong and durable, oven-painted galvanized and coated with lead-free polyester powder for corrosion and rust resistance. The steel meets strict EN 1176 standards, ensuring high quality and safety. The steel is anti-vandalistic, requires minimal maintenance, and is fully recyclable. The high-quality paint ensures weather resistance and maintains a new appearance over time.

Rope Cables

Rope Cables are made of synthetic polypropylene (PP) fibers combined with a galvanized steel core for improved strength and durability. They meet strict standards such as MATI 1498/1497, ASTM A240, and EN 10088, ensuring durability and safety for use in playground equipment. The cables offer a soft and pleasant touch that does not harm the hands during use and are available in various diameters and colors, allowing for creative and aesthetic design.

Motor Development

Hand-eye coordination - Developing coordination and precision in activities requiring fine motor skills.

Cognitive Development

Regulation of force- Developing the ability to apply the right amount of force according to the activity.

Physical Development

Balancing- Improving balance and posture.
