Balancing- Improving balance and posture. Spinning - Improving balance and vestibular functions through carousels.

- Polycarbonate: 
- HPL: 
- Robinia Wood: 

An HDPE carousel with six seats for movement and spinning games. Playing on the carousel is highly enjoyable, suitable for a single player or up to six players at a time. Each player has a colorful seat with handholds to adjust the level of balance challenge during spinning. The Hurricane carousel develops the vestibular system, allows players to practice force regulation and balance in arm and leg muscles, and develop social interaction with other players.

Recycled HDPE

HDPE (High-Density Polyethylene) is a recycled material made from high-density polyethylene, produced from recycled materials that allows for further recycling. It excels in resistance to UV rays and wear and tear, making it particularly suitable for use in outdoor playground equipment. Its touch is smooth and pleasant, and its appearance is maintained over time. The advantages include high resistance to harsh weather conditions and environmental preservation. The material is capable of absorbing high energy, which helps prevent fractures.

Steel

Steel structure that is strong and durable, oven-painted galvanized and coated with lead-free polyester powder for corrosion and rust resistance. The steel meets strict EN 1176 standards, ensuring high quality and safety. The steel is anti-vandalistic, requires minimal maintenance, and is fully recyclable. The high-quality paint ensures weather resistance and maintains a new appearance over time.

Seat

A seat that provides a small resting station during play where players can sit and rest. Suitable for short breaks or extended stays. Playing on the seat allows players to take a break from physical activity while maintaining connection with the environment and continuing social interactions.

Hand and Foot Holds

Hand and foot holds provide support during play and use of the structure. Players develop their strength and coordination while maintaining stability and security.

Engravings

Engravings add designs and illustrations to parts of the structure, enriching the play experience with an interesting visual element.

Motor Development

Foot-eye coordination - Improving coordination and balance through various equipment.

Cognitive Development

Concentration- Developing the ability to focus and maintain attention in equipment requiring concentration. Spatial awareness- Improving the ability to understand and navigate space through mazes and courses.. Regulation of force- Developing the ability to apply the right amount of force according to the activity.

Emotional Development

Courage- Facing fears and new challenges. Confidence- Building self-confidence and belief in one's personal abilities.

Social Development

Cooperation- Encouraging joint work and reaching shared goals. Communication- Developing effective and clear communication skills with playmates. Teamwork- Encouraging teamwork and developing group work skills. Friendship creation- Creating friendships and strengthening social bonds.

Physical Development

Balancing- Improving balance and posture. Spinning - Improving balance and vestibular functions through carousels.
