Bourbon

Robina fitness structure model Bourbon

Steel: 

Robinia Wood: 

Balancing

Hanging

Climbing

Jumping

 Ages 5-12

 Users 1

 Dimensions L: 4'-10.4" H: 7'-11.6" | L: 152 H: 249 cm

 Safety Zone: 14'-1.1" / 12'-2.8"

 Fall Height 6'-6.74" | 200 cm

The Bourbon is a vertical Swedish ladder made from Robinia wood, allowing flexibility, strength, hanging, stretching, and climbing exercises. It's constructed from two Robinia posts with evenly spaced stainless-steel rungs between them.

Ideal for outdoor fitness zones and a wide range of functional exercises, from mobility to strength training. Its natural appearance fits open spaces and promotes safe, independent workouts.

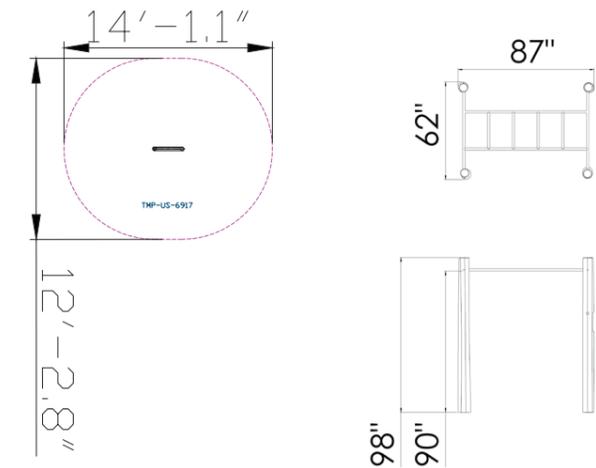

Robinia Wood

European Robinia wood is natural, robust, and durable, particularly suitable for use in outdoor playground equipment. It complies with stringent standards such as FSC, has a smooth and pleasant touch, a natural and authentic appearance, and integrates well with natural surroundings. Its high durability, long lifespan, and being a natural and safe material make it a popular choice for use in playground equipment.

Steel

Steel structure that is strong and durable, oven-painted galvanized and coated with lead-free polyester powder for corrosion and rust resistance. The steel meets strict EN 1176 standards, ensuring high quality and safety. The steel is anti-vandalistic, requires minimal maintenance, and is fully recyclable. The high-quality paint ensures weather resistance and maintains a new appearance over time.

Emotional Development

Confidence- Building self-confidence and belief in one's personal abilities.
Resilience- Coping with failure and trying again.
Perseverance- Encouraging perseverance and repeated attempts.
Achievement- Developing a sense of accomplishment and satisfaction from success in challenging equipment.

Cognitive Development

Concentration- Developing the ability to focus and maintain attention in equipment requiring concentration.
Regulation of force- Developing the ability to apply the right amount of force according to the activity.

Physical Development

Climbing - Strengthening arm and leg muscles, developing fitness and endurance.
Jumping- Improving leg strength and balance.
Hanging - Strengthening arm, back, and shoulder muscles.
Balancing- Improving balance and posture.

Motor Development

Core muscle strengthening- Strengthening abdominal and back muscles through challenging equipment.

Sensory Development

Touch development- Diverse sensory experiences through different materials and textures.
