Typica

Robina fitness structure model Typica

Steel: 

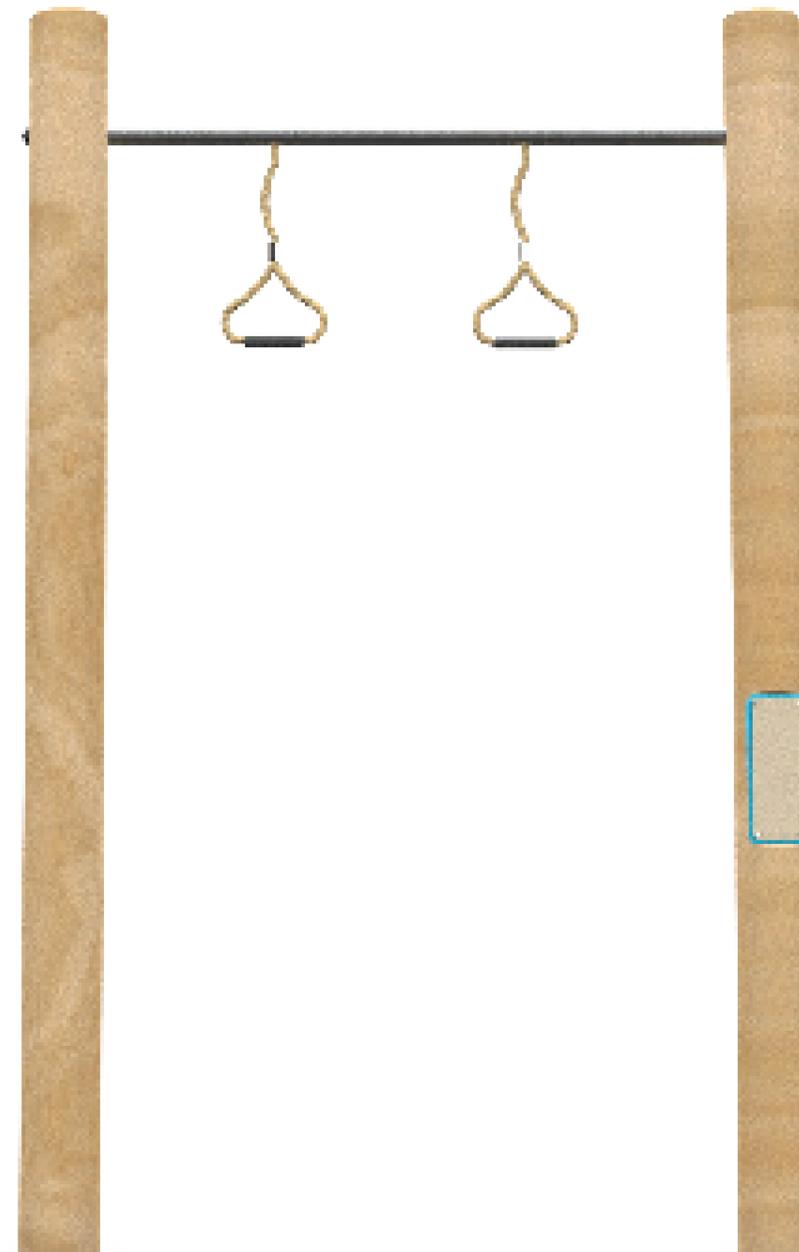

Robinia Wood: 

Balancing

Jumping

 Users 1

 Dimensions L: 5'-1.8" W: 0'-6.5" H: 8'-0" | L: 161 W: 17 H: 250 cm

 Safety Zone: 17'-2.8" / 12'-7.1"

 Fall Height 4'-11.06" | 150 cm

The Typica features hanging rings for upper-body training, grip, balance, and body control. Two Robinia wood posts with a stainless-steel bar across from which the moving rings hang.

Ideal for pull-ups, transitions, and swinging exercises – it requires strength, coordination, and daring. Perfect for teens and adults in a natural fitness trail, with a design that fits beautifully into open landscapes

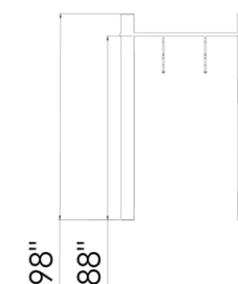

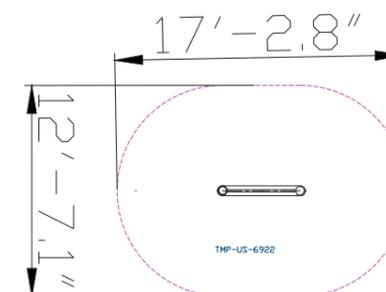

Robinia Wood

European Robinia wood is natural, robust, and durable, particularly suitable for use in outdoor playground equipment. It complies with stringent standards such as FSC, has a smooth and pleasant touch, a natural and authentic appearance, and integrates well with natural surroundings. Its high durability, long lifespan, and being a natural and safe material make it a popular choice for use in playground equipment.

Steel

Steel structure that is strong and durable, oven-painted galvanized and coated with lead-free polyester powder for corrosion and rust resistance. The steel meets strict EN 1176 standards, ensuring high quality and safety. The steel is anti-vandalistic, requires minimal maintenance, and is fully recyclable. The high-quality paint ensures weather resistance and maintains a new appearance over time.

Cognitive Development

Concentration- Developing the ability to focus and maintain attention in equipment requiring concentration. Regulation of force- Developing the ability to apply the right amount of force according to the activity.

Physical Development

Jumping- Improving leg strength and balance. Balancing- Improving balance and posture.

Emotional Development

Independence- Developing independence and the ability to make personal decisions. Patience- Practicing patience and waiting for one's turn. Perseverance- Encouraging perseverance and repeated attempts.

Motor Development

Core muscle strengthening- Strengthening abdominal and back muscles through challenging equipment.
