Fall Height 1'-3" | 38 cm

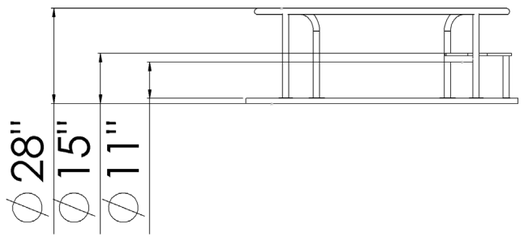

Accessible

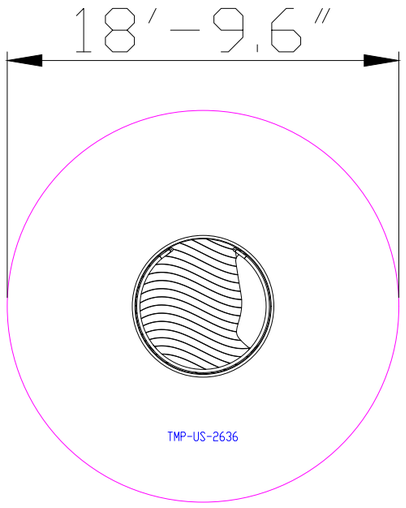

Designed to encourage inclusive play, this accessible merry-go-round creates a shared play experience where children of different abilities can enjoy movement together. Its open design makes it a welcoming focal point within any playground.

The carousel features a spacious platform, supportive handrails, and an integrated bench, providing multiple ways to participate comfortably and safely. Its thoughtful layout encourages interaction and cooperative play.

Combining motion, social engagement, and inclusive design, it promotes communication, shared experiences, and active outdoor play while creating an inviting destination for the entire community.

HPL

HPL panels are high-pressure laminate boards produced by saturating multiple layers of kraft paper with phenolic resin. These panels offer high resistance to abrasion, scratches, and chemical impacts, maintaining their quality in both outdoor and indoor conditions. Available in a variety of colors and textures, HPL panels are used for surfaces, walls, and furniture in playground equipment, providing an aesthetic appearance and requiring low maintenance.

Steel

Steel structure that is strong and durable, oven-painted galvanized and coated with lead-free polyester powder for corrosion and rust resistance. The steel meets strict EN 1176 standards, ensuring high quality and safety. The steel is anti-vandalistic, requires minimal maintenance, and is fully recyclable. The high-quality paint ensures weather resistance and maintains a new appearance over time.
