Robina fitness structure model Robinia Stumps B

Robinia Wood:

Balancing

Climbing

Jumping

Ages 5-12

Users 3

Dimensions L: 9'-3.4" H: 1'-11" | L: 290 H: 60 cm

Safety Zone: 21'-3.8" / 14'-4"

Fall Height 1'-11.62" | 60 cm

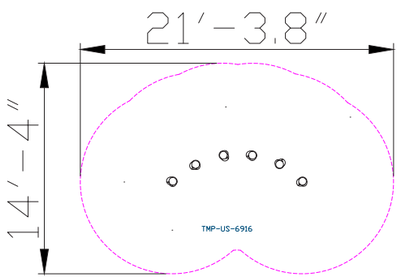

The Robinia Stumps B consists of groups of natural wooden logs at different heights, designed for jumping, balance, agility, and movement control. The structure encourages transitions between posts by jumping or leaping, providing a fun physical challenge in open spaces.

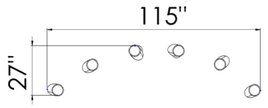

Suitable for all ages, especially as part of a functional fitness circuit or as a supplemental station. The Robinia wood adds a natural feel and long-lasting durability.

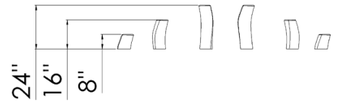

Robinia Wood

European Robinia wood is natural, robust, and durable, particularly suitable for use in outdoor playground equipment. It complies with stringent standards such as FSC, has a smooth and pleasant touch, a natural and authentic appearance, and integrates well with natural surroundings. Its high durability, long lifespan, and being a natural and safe material make it a popular choice for use in playground equipment.

Emotional Development

Courage- Facing fears and new challenges. Patience- Practicing patience and waiting for one's turn. Initiative- Encouraging initiative and taking an active role in play. Resilience- Coping with failure and trying again. Perseverance- Encouraging perseverance and repeated attempts. Achievement- Developing a sense of accomplishment and satisfaction from success in challenging equipment.

Cognitive Development

Concentration- Developing the ability to focus and maintain attention in equipment requiring concentration. Spatial awareness- Improving the ability to understand and navigate space through mazes and courses.

Motor Development

Hand-eye coordination - Developing coordination and precision in activities requiring fine motor skills. Foot-eye coordination - Improving coordination and balance through various equipment. Core muscle strengthening- Strengthening abdominal and back muscles through challenging equipment.

Physical Development

Climbing - Strengthening arm and leg muscles, developing fitness and endurance. Jumping- Improving leg strength and balance. Balancing- Improving balance and posture.
