The Candy Elements present a delightful trio of decorative pieces shaped as a lollipop, a wrapped candy, and an ice cream cone, artfully combined into a single vibrant unit. These charming sweets infuse playgrounds with a sense of story, playfulness, and colorful whimsy, evoking the magic of fairy tales and enchanted candy shops. The design showcases bold, joyful shapes that instantly capture children's imaginations and create an atmosphere of wonder and delight. Featuring bright, inviting colors, these elements enhance any play environment with a playful, sweet fantasy atmosphere that transforms ordinary spaces into extraordinary realms of imagination.

Psagot Playgrounds

Recycled HDPE

HDPE (High-Density Polyethylene) is a recycled material made from high-density polyethylene, produced from recycled materials that allows for further recycling. It excels in resistance to UV rays and wear and tear, making it particularly suitable for use in outdoor playground equipment. Its touch is smooth and pleasant, and its appearance is maintained over time. The advantages include high resistance to harsh weather conditions and environmental preservation. The material is capable of absorbing high energy, which helps prevent fractures.

Steel

Steel structure that is strong and durable, oven-painted galvanized and coated with lead-free polyester powder for corrosion and rust resistance. The steel meets strict EN 1176 standards, ensuring high quality and safety. The steel is anti-vandalistic, requires minimal maintenance, and is fully recyclable. The high-quality paint ensures weather resistance and maintains a new appearance over time.

Polycarbonate

Colored polycarbonate is a durable, lightweight, and transparent thermoplastic polymer that complies with international standards such as EN 71 and ISO 179. It has a smooth touch, a glossy appearance, and is available in a variety of colors and transparencies. The material is used to create decorative elements in playground equipment, offering high impact resistance, UV protection, and great design flexibility
