Safety Zone: 13'-9.7" / 12'-10"

Fall Height 3' 2.4" | 100 cm

Accessible

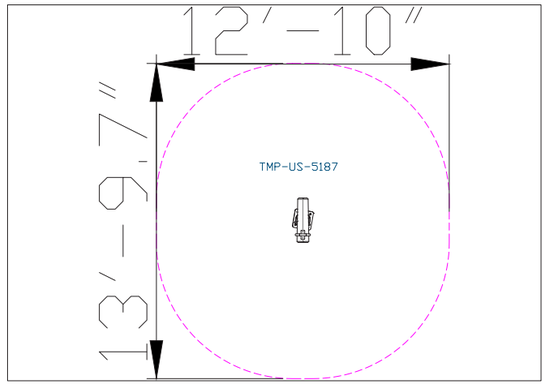

The Robinia Horse is a spring-based play structure shaped like a horse, made from natural Robinia Wood. Mounted on a durable spring, it offers children an enjoyable bouncing, rocking experience. The design combines the sensation of horseback riding with the joy of movement, helping develop motor skills such as balance and coordination.

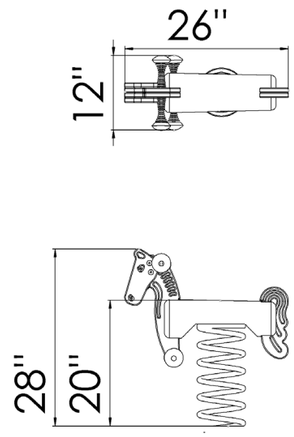

The durable and natural structure blends harmoniously into any playground, creating a pleasent and playful environment. Suitable for outdoor and weather-resistant, this Robinia Horse is great for children of all ages.

Robinia Wood

European Robinia wood is natural, robust, and durable, particularly suitable for use in outdoor playground equipment. It complies with stringent standards such as FSC, has a smooth and pleasant touch, a natural and authentic appearance, and integrates well with natural surroundings. Its high durability, long lifespan, and being a natural and safe material make it a popular choice for use in playground equipment.

Hand and Foot Holds

Hand and foot holds provide support during play and use of the structure. Players develop their strength and coordination while maintaining stability and security.

Log Play Surface

The log play surface provides players with a natural and challenging play space, simulating walking or standing on a tree trunk. The surface combines a natural appearance with stability and safety, encouraging players to develop their balance and coordination while moving.

Springs

The springs are made of high-quality, durable materials, designed safely without pinching or entrapments. They allow for movement and rocking games, developing motor skills, spatial awareness, and a sense of balance.

Springy Mat

The springy mat encourages players to jump and move. Playing on the springy mat develops players' strength, coordination, and balance.

Emotional Development

Courage- Facing fears and new challenges. Confidence- Building self-confidence and belief in one's personal abilities. Independence- Developing independence and the ability to make personal decisions.

Cognitive Development

Regulation of force- Developing the ability to apply the right amount of force according to the activity.

Physical Development

Swinging - Strengthening core muscles and enhancing the sense of movement.
