Robinia stumps - Robinia wood fitness course

Robinia Wood:

Balancing

Climbing

Jumping

Ages 5-12

Users 8

Dimensions L: 9'-9.5" W: 3'-1.6" H: 1'-11" | L: 268 W: 100 H: 334 cm

Safety Zone 22'-2"/ 15'-3.1" | 676/465 cm

Fall Height 60" | 210 cm

Accessible

The Robinia Stumps fitness course is made from natural Robinia Wood, offering children the experience of walking on logs at varying heights. The course challenges children to maintain their balance while moving, encouraging them to intuitively develop their motor and physical skills. The natural design blends into the outdoor environment, inviting children on a small adventure in the open space.

Cognitive Development

Concentration- Developing the ability to focus and maintain attention in equipment requiring concentration. Spatial awareness- Improving the ability to understand and navigate space through mazes and courses.. Regulation of force- Developing the ability to apply the right amount of force according to the activity.

Emotional Development

Imagination- Encouraging imagination and creating play worlds. Confidence- Building self-confidence and belief in one's personal abilities. Independence- Developing independence and the ability to make personal decisions. Patience- Practicing patience and waiting for one's turn.

Physical Development

Jumping- Improving leg strength and balance. Balancing- Improving balance and posture.

Motor Development

Foot-eye coordination - Improving coordination and balance through various equipment.

Robinia Wood

European Robinia wood is natural, robust, and durable, particularly suitable for use in outdoor playground equipment. It complies with stringent standards such as FSC, has a smooth and pleasant touch, a natural and authentic appearance, and integrates well with natural surroundings. Its high durability, long lifespan, and being a natural and safe material make it a popular choice for use in playground equipment.

Climbing Element

The climbing element offers a physical challenge that develops muscle strength, coordination, and balance. Climbing on the element encourages children to overcome fears and build self-confidence and perseverance. Additionally, the element helps develop problem-solving skills as children look for efficient and safe ways to climb.
