Robinia Wood:

Balancing

Ages 5-12

Users 2

Dimensions L: 2'-10.6" W: 11.1" H: 4'-9.6" | L: 90 W: 29 H: 150 cm

Safety Zone 14'-11.4"/12'-9.3" | 456 / 389 cm

Fall Height 1'-9.1" | 55 cm

Accessible

Granito provides a unique climbing experience with natural Robinia Wood poles and handholds. The structure is built for children to experiment with climbing different heights, strengthening their muscles, and improving their balance. The pole design invites children to challenge themselves, overcome fears, and develop self-confidence in a safe and inviting environment.

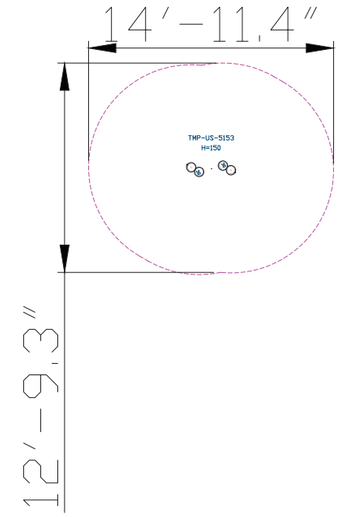

Climbing Element

The climbing element offers a physical challenge that develops muscle strength, coordination, and balance. Climbing on the element encourages children to overcome fears and build self-confidence and perseverance. Additionally, the element helps develop problem-solving skills as children look for efficient and safe ways to climb.

Robinia Wood

European Robinia wood is natural, robust, and durable, particularly suitable for use in outdoor playground equipment. It complies with stringent standards such as FSC, has a smooth and pleasant touch, a natural and authentic appearance, and integrates well with natural surroundings. Its high durability, long lifespan, and being a natural and safe material make it a popular choice for use in playground equipment.
