Accessible+

"Crafted from natural Robinia wood, this accessible seesaw features a uniquely low balancingmechanismtailoredforuserswith limited mobility. It includes two balanced seating platforms connected by a central axis and mounted on durable wheels, enabling smooth reciprocal up-and-down movement reminiscent of a classic seesaw. Designed with care and natural materials, the seesaw offers a gentle, safe, and inclusive interactive experience. It encourages coordination, eye contact, mutual attention, and collaboration, making it ideal for children of all abilities to play together comfortably and joyfully."

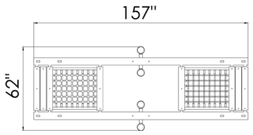

Robinia Wood

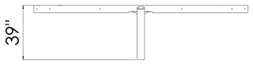

European Robinia wood is natural, robust, and durable, particularly suitable for use in outdoor playground equipment. It complies with stringent standards such as FSC, has a smooth and pleasant touch, a natural and authentic appearance, and integrates well with natural surroundings. Its high durability, long lifespan, and being a natural and safe material make it a popular choice for use in playground equipment.

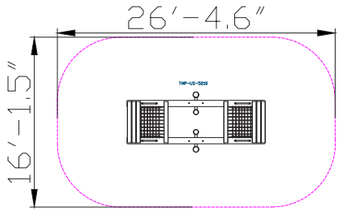

Rope Cables

Rope Cables are made of synthetic polypropylene (PP) fibers combined with a galvanized steel core for improved strength and durability. They meet strict standards, such as ASTM A240 and EN 10088, ensuring durability and safety for use in playground equipment. . The cables offer a soft and pleasant touch that does not harm the hands during use and are available in various diameters and colors, allowing for creative and aesthetic design.

Social Development

Cooperation- Encouraging joint work and reaching shared goals. Communication- Developing effective and clear communication skills with playmates. Leadership- Providing opportunities for leadership development and group leading. Teamwork- Encouraging teamwork and developing group work skills. Friendship creation- Creating friendships and strengthening social bonds.

Motor Development

Core muscle strengthening- Strengthening abdominal and back muscles through challenging equipment.

Physical Development

Jumping- Improving leg strength and balance. Balancing- Improving balance and posture. Swinging - Strengthening core muscles and enhancing the sense of movement.

Emotional Development

Confidence- Building self-confidence and belief in one's personal abilities. Independence- Developing independence and the ability to make personal decisions.

Cognitive Development

Concentration- Developing the ability to focus and maintain attention in equipment requiring concentration.
