Users 11

Dimensions L: 13'-6" W: 11' 5.5" H: 11'-0.1" | L: 422 W: 358 H: 344 cm

Safety Zone: 26'-11.5" / 25'-0.3"

Fall Height3' 3.37" | 100 cm

Accessible

The Alaska play system is designed specifically for toddlers beginning their play journey, and supports early childhood development. It features small slides, gentle climbing elements, colorful play panels, and sensory components that invite tactile exploration and discovery.

With a bright, cheerful design, soft lines, and rounded corners, the structure creates a safe, welcoming environment that encourages natural curiosity. It fosters fine and gross motor skills, spatial awareness, sensory regulation, and symbolic play. Thoughtfully arranged for easy access, clear visibility, and distinct activity zones, Alaska is ideal for kindergartens, public play areas, and dedicated toddler parks.

Recycled HDPE

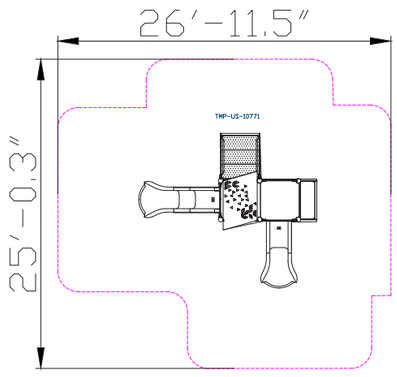

HDPE (High-Density Polyethylene) is a recycled material made from high-density polyethylene, produced from recycled materials that allows for further recycling. It excels in resistance to UV rays and wear and tear, making it particularly suitable for use in outdoor playground equipment. Its touch is smooth and pleasant, and its appearance is maintained over time. The advantages include high resistance to harsh weather conditions and environmental preservation. The material is capable of absorbing high energy, which helps prevent fractures.

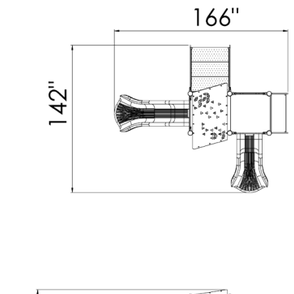

Steel

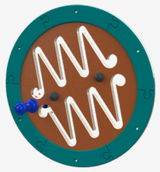

Steel structure that is strong and durable, oven-painted galvanized and coated with lead-free polyester powder for corrosion and rust resistance. The steel meets strict EN 1176 standards, ensuring high quality and safety. The steel is anti-vandalistic, requires minimal maintenance, and is fully recyclable. The high-quality paint ensures weather resistance and maintains a new appearance over time.

Psagot Playgrounds

Play Panel

The play panel provides a variety of interactive play options that develop players' motor and cognitive skills. Each panel offers a unique activity that stimulates thinking and encourages players to learn and discover more.

Toddler Slide

The toddler slide provides a safe and enjoyable sliding experience for little ones. It develops coordination, movement, balance, and self-confidence for young players.

Climbing Element

The climbing element offers a physical challenge that develops muscle strength, coordination, and balance. Climbing on the element encourages children to overcome fears and build self-confidence and perseverance. Additionally, the element helps develop problem-solving skills as children look for efficient and safe ways to climb.

Accessible Stairs

The high-durability stairs provide easy and safe access to the play structure, with a non-slip surface to prevent falls. Climbing and descending the stairs help players develop physical skills such as strength, coordination, and balance. The stairs also encourage independence and self-confidence as players learn to navigate heights and new tasks. Suitable for transfer accessibility to ensure convenient and safe access for players with disabilities, including smooth transitions from a wheelchair to the play structure and back.

Psagot Playgrounds

Motor Development

Hand-eye coordination - Developing coordination and precision in activities requiring fine motor skills. Foot-eye coordination - Improving coordination and balance through various equipment.

Physical Development

Climbing - Strengthening arm and leg muscles, developing fitness and endurance. Jumping- Improving leg strength and balance. Sliding - Strengthening leg and arm muscles and improving coordination.

Cognitive Development

Curiosity - Encouraging exploration and discovery through equipment providing new and unfamiliar experiences. Creativity- Developing creative thinking and imagination in open and interactive play.

Emotional Development

Confidence- Building self-confidence and belief in one's personal abilities. Independence- Developing independence and the ability to make personal decisions. Patience- Practicing patience and waiting for one's turn.

Social Development

Communication- Developing effective and clear communication skills with playmates. Respect for boundaries- Learning the importance of respecting personal and social boundaries. Friendship creation- Creating friendships and strengthening social bonds.

Sensory Development

Touch development- Diverse sensory experiences through different materials and textures. Hearing development- Stimulating the sense of hearing through the integration of sounds and music. Vision development- Rich visual experiences through vibrant colors and shapes.
