Fair Oaks

Embankment slide model Fair Oaks

Recycled HDPE:
Steel:
Polycarbonate:

Sliding
Climbing
Crawling

Ages 5-12
Users 12
Dimensions L: 14'-1.3" W: 7' 4.7" H: 14'-7.5" | L: 441 W: 231 H: 457 cm
Safety Zone: 26'-5" / 17'-7.1"
Fall Height 67" | 170 cm
Accessible

The Fair Oaks structure features an extra-wide double slide designed to exceed standard widths, perfect for installation on natural slopes. The smooth, flowing slide allows two children to glide side by side, fostering cooperative play, shared enjoyment, and social interaction.

Easy and comfortable access to the slide complements the fun, while engaging game panels on the sides add variety and enrich the overall play experience beyond just sliding. Ideal for integrating active play zones along park slopes or playgrounds, this structure ensures continuous movement, high accessibility, and a vibrant, landscape-friendly presence.

Recycled HDPE

HDPE (High-Density Polyethylene) is a recycled material made from high-density polyethylene, produced from recycled materials that allows for further recycling. It excels in resistance to UV rays and wear and tear, making it particularly suitable for use in outdoor playground equipment. Its touch is smooth and pleasant, and its appearance is maintained over time. The advantages include high resistance to harsh weather conditions and environmental preservation. The material is capable of absorbing high energy, which helps prevent fractures.

Steel

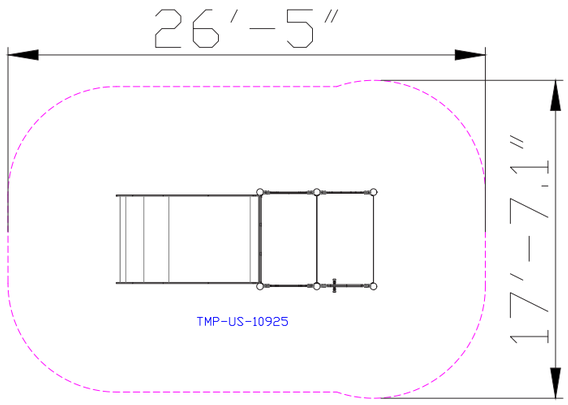

Steel structure that is strong and durable, oven-painted galvanized and coated with lead-free polyester powder for corrosion and rust resistance. The steel meets strict EN 1176 standards, ensuring high quality and safety. The steel is anti-vandalistic, requires minimal maintenance, and is fully recyclable. The high-quality paint ensures weather resistance and maintains a new appearance over time.

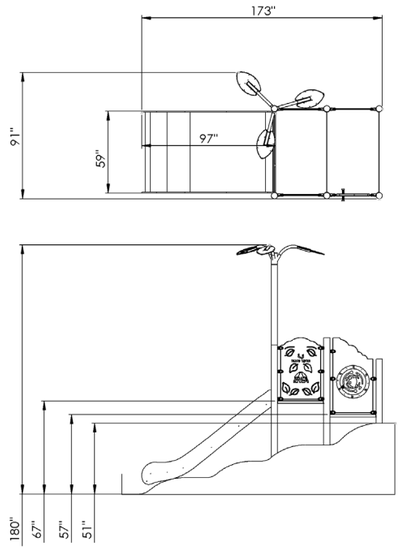

Polycarbonate

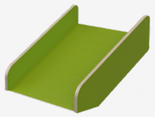

Colored polycarbonate is a durable, lightweight, and transparent thermoplastic polymer that complies with international standards such as EN 71 and ISO 179. It has a smooth touch, a glossy appearance, and is available in a variety of colors and transparencies. The material is used to create decorative elements in playground equipment, offering high impact resistance, UV protection, and great design flexibility

Sliding Surface

The sliding surface provides a smooth and enjoyable movement experience, encouraging players to improve their coordination and balance while sliding or climbing.

Play Panel

The play panel provides a variety of interactive play options that develop players' motor and cognitive skills. Each panel offers a unique activity that stimulates thinking and encourages players to learn and discover more.

Musical Panel

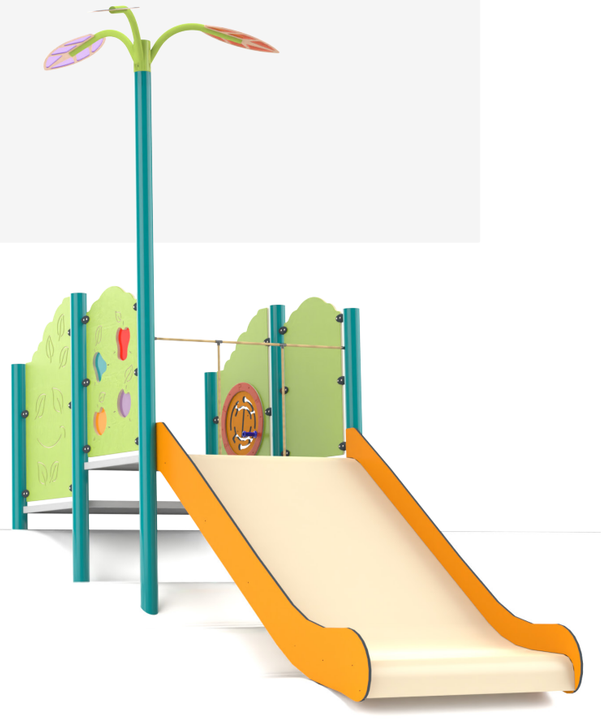

The musical panel stimulates the sense of hearing and encourages players to create and play sounds and melodies. Playing with the panel develops players' creativity, rhythm, and coordination.

Decorations and Accessories

Decorations and accessories adorn the structures and highlight the theme of the playground. They encourage players to use their imagination and creativity during play.

Motor Development

Fine motor skills- Developing precise control in small movements through activities requiring fine manual skills.

Sensory Development

Touch development- Diverse sensory experiences through different materials and textures. Hearing development- Stimulating the sense of hearing through the integration of sounds and music. Vision development- Rich visual experiences through vibrant colors and shapes.

Cognitive Development

Curiosity - Encouraging exploration and discovery through equipment providing new and unfamiliar experiences. Creativity- Developing creative thinking and imagination in open and interactive play.

Physical Development

Climbing - Strengthening arm and leg muscles, developing fitness and endurance. Sliding - Strengthening leg and arm muscles and improving coordination.

Emotional Development

Courage- Facing fears and new challenges. Confidence- Building self-confidence and belief in one's personal abilities. Independence- Developing independence and the ability to make personal decisions. Patience- Practicing patience and waiting for one's turn.

Social Development

Cooperation- Encouraging joint work and reaching shared goals. Communication- Developing effective and clear communication skills with playmates. Respect for boundaries- Learning the importance of respecting personal and social boundaries. Friendship creation- Creating friendships and strengthening social bonds. Social skills- Developing social skills such as manners, reciprocity and mutual respect.
