Safety Zone:; 22'-7.7" / 18'-11.7"

Fall Height 4' 7.12" | 140 cm

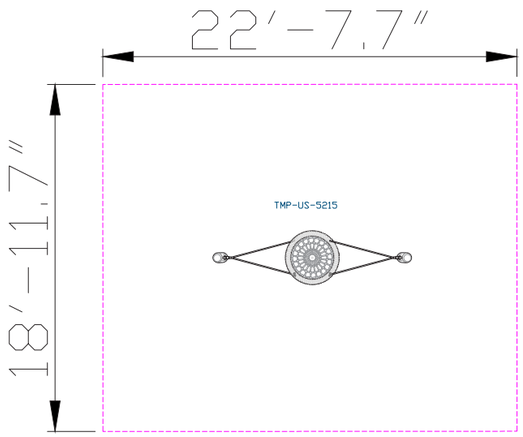

Accessible

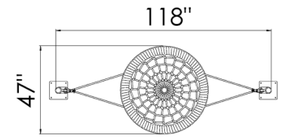

The M Robinia Swing is a beautifully crafted swing structure that pairs the organic elegance of curved Robinia wood beams with the comfort of a bird's nest seat, designed for gentle, circular motion and providing a unique floating sensation with stable, supportive movement. Crafted from maintenance-free natural Robinia wood—known for its high durability and resistance to weather without requiring chemical preservation — and premium steel-core ropes, the swing features a durable, spacious nest seat that harmonizes naturally with outdoor environments. Whether used solo, in pairs, or shared among small groups, the swing supports sensory regulation, balance, body coordination, social interaction, and imaginative play.

Robinia Wood

European Robinia wood is natural, robust, and durable, particularly suitable for use in outdoor playground equipment. It complies with stringent standards such as FSC, has a smooth and pleasant touch, a natural and authentic appearance, and integrates well with natural surroundings. Its high durability, long lifespan, and being a natural and safe material make it a popular choice for use in playground equipment.
