Ninja Balance Beam

Ninja Balance Beam - Ninja Course

Recycled HDPE:

Steel:

Balancing

Ages 5-12

Users 5

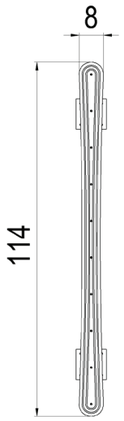

Dimensions L: 9'-3.4" W: 7.7" H: 1'-2.2" | L: 290 W: 20 H: 37 cm

Safety Zone 21'-9.1"/12'-7.9" | 663 / 384 cm

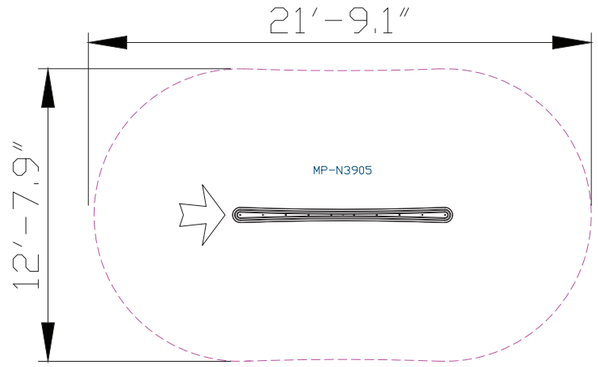

Fall Height 1'-9.1" | 55 cm

Accessible

A sporty balance beam that supprts physical and motor development of both children and adults. Maintaining stability, concentration, and pre-planning are key to mastering the beam. The base of the structure is made of galvanized, powder-coated steel. The walking surface is made of HDPE with anti-slip grooves. The bearings are original Rosta bearings.

Steel

Steel structure that is strong and durable, oven-painted galvanized and coated with lead-free polyester powder for corrosion and rust resistance. The steel meets strict EN 1176 and MATI 1498/1497 standards, ensuring high quality and safety. The steel is anti-vandalistic, requires minimal maintenance, and is fully recyclable. The high-quality paint ensures weather resistance and maintains a new appearance over time.

Recycled HDPE

HDPE (High-Density Polyethylene) is a recycled material made from high-density polyethylene, produced from recycled materials that allows for further recycling. It excels in resistance to UV rays and wear and tear, making it particularly suitable for use in outdoor playground equipment. Its touch is smooth and pleasant, and its appearance is maintained over time. The advantages include high resistance to harsh weather conditions and environmental preservation. The material is capable of absorbing high energy, which helps prevent fractures.

Psagot Playgrounds

Moving Platform

The moving platform provides a dynamic movement experience that develops players' motor skills and coordination. Playing on the moving platform encourages stability and self-confidence while moving.

Rosta Bearing

A special bearing that allows for smooth movement and fun in the structure.

Motor Development

Foot-eye coordination - Improving coordination and balance through various equipment.

Cognitive Development

Concentration- Developing the ability to focus and maintain attention in equipment requiring concentration.

Emotional Development

Courage- Facing fears and new challenges. Confidence- Building self-confidence and belief in one's personal abilities. Independence- Developing independence and the ability to make personal decisions. Resilience- Coping with failure and trying again. Perseverance- Encouraging perseverance and repeated attempts. Achievement- Developing a sense of accomplishment and satisfaction from success in challenging equipment.

Social Development

Empathy- Developing empathy and the ability to understand and empathize with others' feelings. Respect for boundaries- Learning the importance of respecting personal and social boundaries. Friendship creation- Creating friendships and strengthening social bonds.

Physical Development

Balancing- Improving balance and posture.
