Ninja Hovering Hangars

Ninja Hovering Hangars - Ninja Course

Recycled HDPE:

Steel:

Balancing

Swinging

Hanging

Jumping

Ages 5-12

Users 6

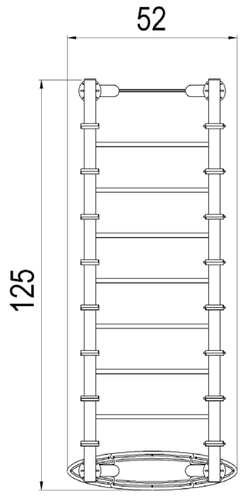

Dimensions L: 4'-2.3" W: 10' H: 7'-9.3" | L: 313 W: 131 H: 243 cm

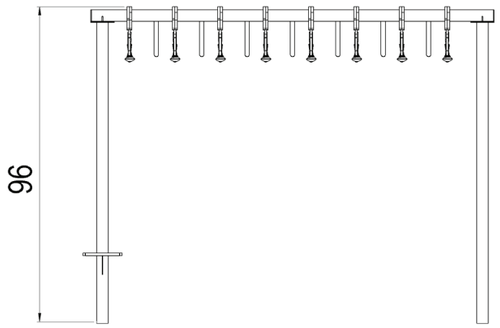

Safety Zone 28'-3.4" / 22'-3.6" | 861 / 678 cm

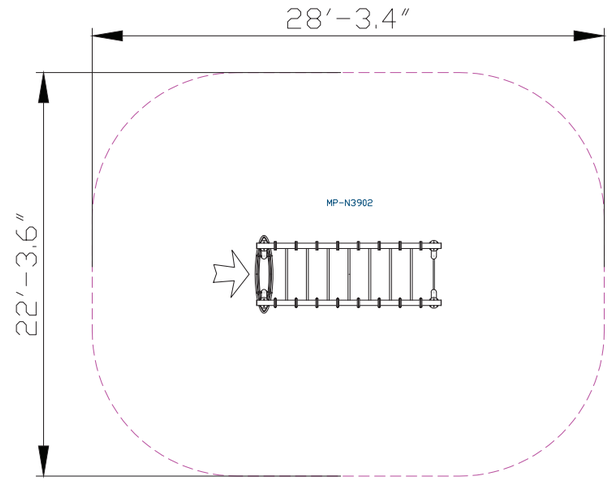

Fall Height 7'-8.2" | 240 cm

Accessible

The hovering hangers can only be passed using hand movements. Our hovering hangers offer young ninjas the opportunity to use three different types of hand grips, allowing for varied training and use of different arm muscles.

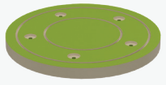

Steel

Steel structure that is strong and durable, oven-painted galvanized and coated with lead-free polyester powder for corrosion and rust resistance. The steel meets strict EN 1176 and MATI 1498/1497 standards, ensuring high quality and safety. The steel is anti-vandalistic, requires minimal maintenance, and is fully recyclable. The high-quality paint ensures weather resistance and maintains a new appearance over time.

Recycled HDPE

HDPE (High-Density Polyethylene) is a recycled material made from high-density polyethylene, produced from recycled materials that allows for further recycling. It excels in resistance to UV rays and wear and tear, making it particularly suitable for use in outdoor playground equipment. Its touch is smooth and pleasant, and its appearance is maintained over time. The advantages include high resistance to harsh weather conditions and environmental preservation. The material is capable of absorbing high energy, which helps prevent fractures.

Tread Surface

The tread surface provides support and safety during play on the structure. The surface is designed to prevent slipping and improve players' stability and security.

Hand and Foot Holds

Hand and foot holds provide support during play and use of the structure. Players develop their strength and coordination while maintaining stability and security.

Hand Walking Element

The hand-walking element strengthens upper body strength and develops coordination and balance in players. By moving using only their hands, players learn to control their movements, improve their motor skills, and strengthen their arms and shoulders. The height effect and the fact that their feet do not touch the ground add an extra dimension of challenge, requiring players to maintain balance and build self-confidence as they tackle a significant physical challenge.

Hand and Foot Holds

Hand and foot holds provide support during play and use of the structure. Players develop their strength and coordination while maintaining stability and security.

Motor Development

Core muscle strengthening- Strengthening abdominal and back muscles through challenging equipment. Hand-eye coordination - Developing coordination and precision in activities requiring fine motor skills.

Cognitive Development

Concentration- Developing the ability to focus and maintain attention in equipment requiring concentration. Spatial awareness- Improving the ability to understand and navigate space through mazes and courses.. Regulation of force- Developing the ability to apply the right amount of force according to the activity.

Emotional Development

Courage- Facing fears and new challenges. Confidence- Building self-confidence and belief in one's personal abilities. Independence- Developing independence and the ability to make personal decisions. Resilience- Coping with failure and trying again. Perseverance- Encouraging perseverance and repeated attempts. Achievement- Developing a sense of accomplishment and satisfaction from success in challenging equipment.

Social Development

Empathy- Developing empathy and the ability to understand and empathize with others' feelings. Respect for boundaries- Learning the importance of respecting personal and social boundaries. Friendship creation- Creating friendships and strengthening social bonds.

Physical Development

Jumping- Improving leg strength and balance. Hanging - Strengthening arm, back, and shoulder muscles. Balancing- Improving balance and posture. Swinging - Strengthening core muscles and enhancing the sense of movement.
