Safety Zone 10'/8'-4" | 305 / 254

The tree stump playset is designed for jumping and navigating through obstacles, for both training and play. Part of the Psagot Playgrounds dog equipment series, it features spaced wooden logs for dogs to leap over and maneuver around, enhancing their agility and balance. Made from powder-coated steel and premium pinewood, it offers the same high-quality finish as children's playground equipment, with non-toxic paint and carefully sanded wood to avoid splinters.

Robinia Wood

European Robinia wood is natural, robust, and durable, particularly suitable for use in outdoor playground equipment. It complies with stringent standards such as FSC, has a smooth and pleasant touch, a natural and authentic appearance, and integrates well with natural surroundings. Its high durability, long lifespan, and being a natural and safe material make it a popular choice for use in playground equipment.
