Safety Zone: 62'-8.9" / 52'

Fall Height 9' 3.4" | 290 cm

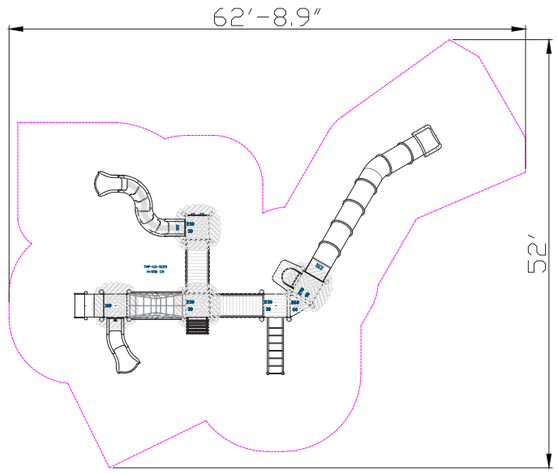

Accessible

The Cortado model is made from a combination of natural European Robinia Wood and durable HPL (High Pressure Laminate) panels. The Robinia Wood gives the equipment a natural and warm appearance, while the HPL panels add a colorful and modern touch. The blend of materials creates an aesthetic and harmonious design that fits well in outdoor spaces. The equipment includes various play elements like climbing walls, slides of different heights, bridges, and rope nets, encouraging climbing, sliding, curiosity, and creative play. It allows participants to explore and engage in diverse physical challenges.

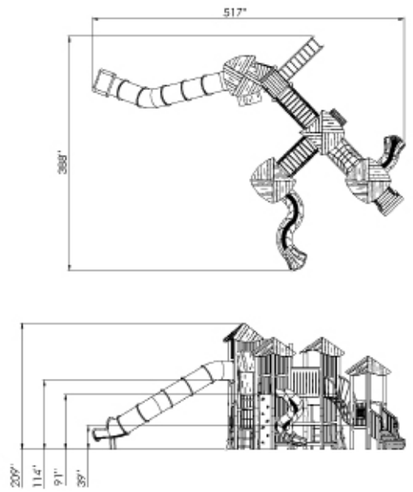

Robinia Wood

European Robinia wood is natural, robust, and durable, particularly suitable for use in outdoor playground equipment. It complies with stringent standards such as FSC, has a smooth and pleasant touch, a natural and authentic appearance, and integrates well with natural surroundings. Its high durability, long lifespan, and being a natural and safe material make it a popular choice for use in playground equipment.

Roof

The roof provides shade and protection from the sun and rain, allowing players to enjoy play in comfortable conditions. In addition to its functional role, the roof is designed to enhance the look of the structure and align with the story told by the design of the play structure. The roof design contributes to creating an engaging and unique play environment that stimulates imagination and enriches the players'

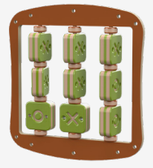

Accessible Stairs

The high-durability stairs provide easy and safe access to the play structure, with a non-slip surface to prevent falls. Climbing and descending the stairs help players develop physical skills such as strength, coordination, and balance. The stairs also encourage independence and self-confidence as players learn to navigate heights and new tasks. Suitable for transfer accessibility to ensure convenient and safe access for players with disabilities.

Barrel Slide

The barrel slide provides an exciting and challenging sliding experience, combining movement with a sense of adventure. Sliding in this slide develops players' motor skills and coordination as they move through the tube at varying speeds. The sliding action boosts self-confidence and encourages daring as players face the challenge of fast movement. The slide is a fundamental and important element in any playground and is

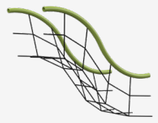

Play Panel

The play panel provides a variety of interactive play options that develop players' motor and cognitive skills. Each panel offers a unique activity that stimulates thinking and encourages players to learn and discover more.

Toddler Slide

The toddler slide provides a safe and enjoyable sliding experience for little ones. It develops coordination, movement, balance, and self-confidence for young players.

Inclined Bridge

The inclined bridge offers a physical challenge that develops players' motor skills and balance. The bridge connects two levels at different heights within the play structure, allowing safe and convenient passage between them. Ascending the bridge adds a sense of adventure and challenge as players learn to maintain stability and confidence during the crossing. Playing on the bridge encourages daring and perseverance as players tackle the climb and height.

Hand Walking Element

The hand-walking element strengthens upper body strength and develops coordination and balance in players. By moving using only their hands, players learn to control their movements, improve their motor skills, and strengthen their arms and shoulders. The height effect and the fact that their feet do not touch the ground add an extra dimension of challenge, requiring players to maintain balance and build self-confidence as they tackle a significant physical challenge.

Climbing Wall

The climbing wall offers a physical challenge that develops the muscle strength, coordination and weight of the players. Climbing the wall improves their problem solving. This is a place where players overcome fears and develop courage and self-confidence.

Psagot Playgrounds

Emotional Development

Courage- Facing fears and new challenges. Confidence- Building self-confidence and belief in one's personal abilities. Independence- Developing independence and the ability to make personal decisions.
