Fall Height 1'-11" | 60 cm

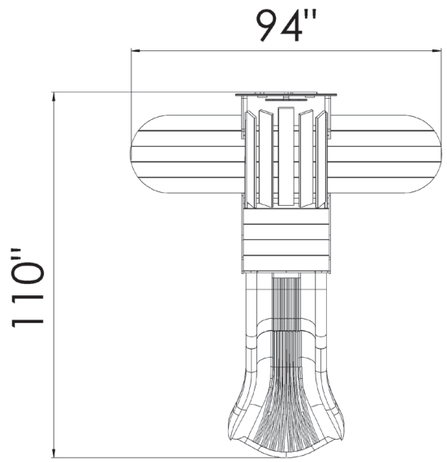

Accessible

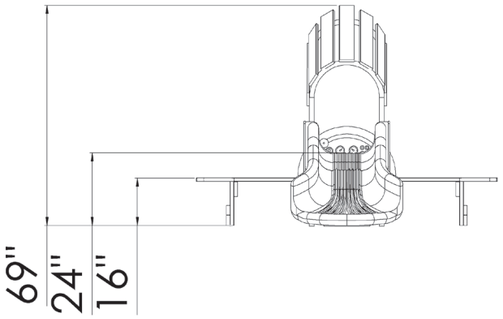

The Aardvark toddler airplane is made from natural European Robinia Wood and features a stainless-steel 316 construction, giving it high durability alongside an attractive appearance. The system includes design elements such as a rounded roof, plastic chain slide, and a decorative propeller that mimics the flying experience. The play surfaces, shaped like wings, allow children to imagine they are pilots, jumping and playing while developing creativity and imagination. The system is carefully designed to provide a diverse and safe play experience for toddlers, combining physical activity with imaginative play.

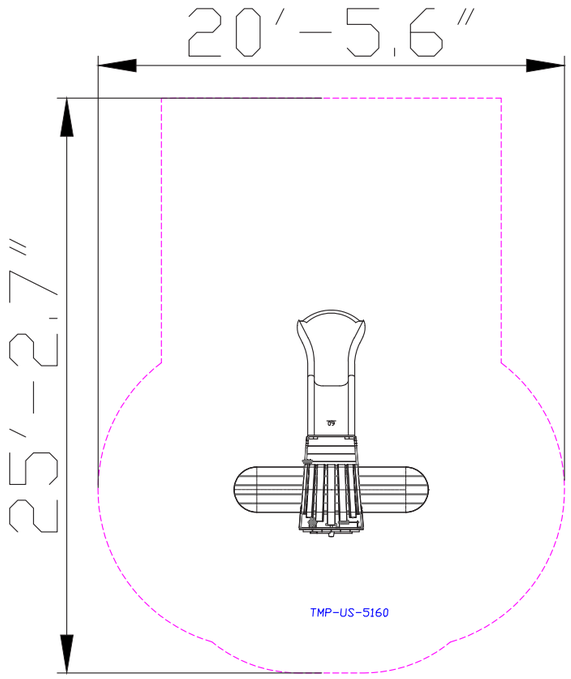

Robinia Wood

European Robinia wood is natural, robust, and durable, particularly suitable for use in outdoor playground equipment. It complies with stringent standards such as FSC, has a smooth and pleasant touch, a natural and authentic appearance, and integrates well with natural surroundings. Its high durability, long lifespan, and being a natural and safe material make it a popular choice for use in playground equipment.

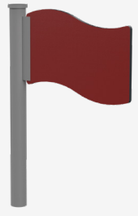

Toddler Slide

The toddler slide provides a safe and enjoyable sliding experience for little ones. It develops coordination, movement, balance, and self-.confidence for young players

Moving Game

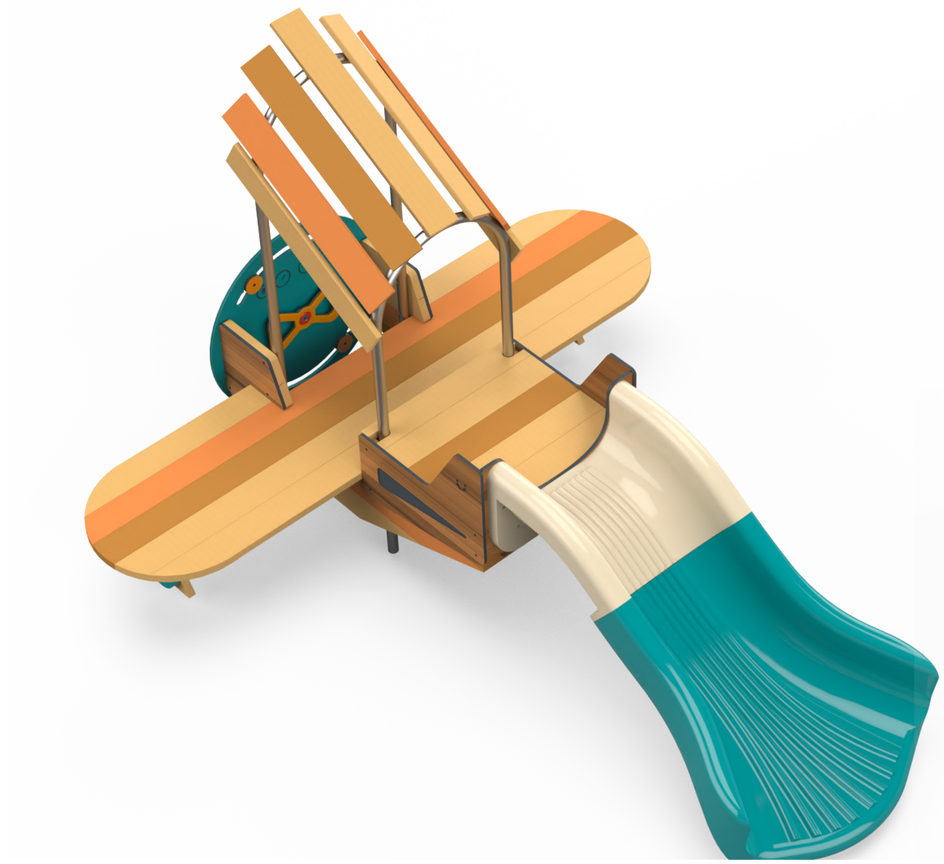

The moving game provides dynamic activity that develops players' coordination, strength, and motor .skills
