Dimensions L: 154" W: 91" H: 106" | cm L: 217 W: 380 H: 229

Safety Zone 24'-8.5"/19'-8.3" | cm 753 / 600

Fall Height 81" | 205 cm

Accessible

The Mini Rope Swing is a unique swing made of natural Robinia Wood and polyamide-coated steel cables. The system offers children a relaxing swinging experience that simulates riding a rope horse. The cables that hold the seat also serve as handrails, adding security and stability for children. The system encourages children to develop balance and coordination while enjoying outdoor play.

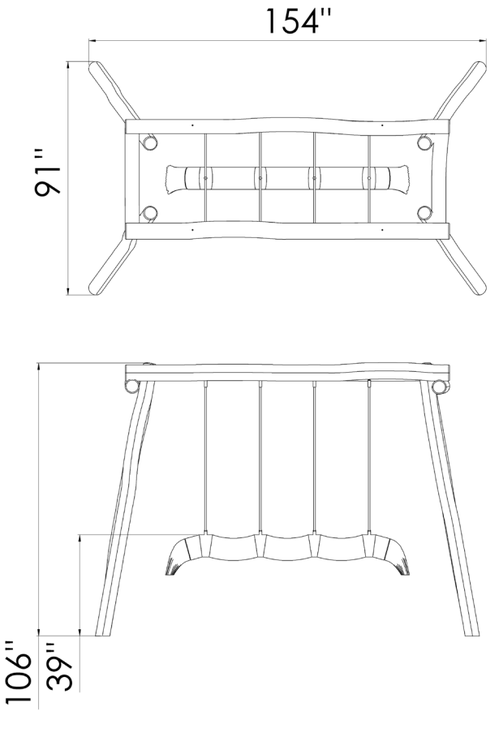

Robinia Wood

European Robinia wood is natural, robust, and durable, particularly suitable for use in outdoor playground equipment. It complies with stringent standards such as FSC, has a smooth and pleasant touch, a natural and authentic appearance, and integrates well with natural surroundings. Its high durability, long lifespan, and being a natural and safe material make it a popular choice for use in playground equipment.

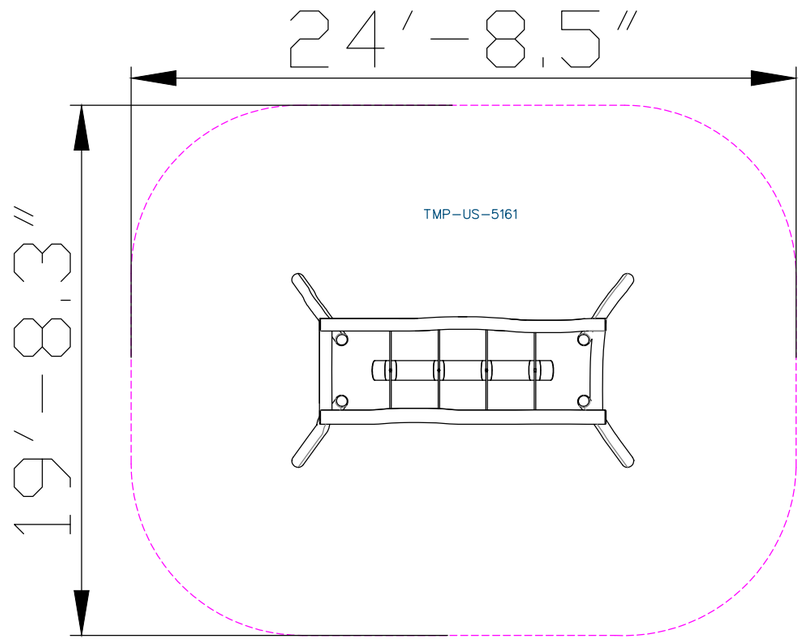

Rope Cables

Rope Cables are made of synthetic polypropylene (PP) fibers combined with a galvanized steel core for improved strength and durability. They meet strict standards such as MATI 1498/1497, ASTM A240, and EN 10088, ensuring durability and safety for use in playground equipment. The cables offer a soft and pleasant touch that does not harm the hands during use and are available in various diameters and colors, allowing

Stepping Bridge

The stepping bridge provides a safe and convenient passage between parts of the structure, developing players' motor skills and balance. Playing on the bridge encourages movement and .a sense of achievement

Rope Horse Beam

A high-quality woven rope beam for developing various movement and .balance skills

Motor Development

Foot-eye coordination - Improving coordination and balance through .various equipment
