TSP-5013

Saturn

Challenging ropes pyramid strucutre model Saturn

The Saturn is a challenging cable pyramid designed for climbing, combining taut ropes connected to a central pole. It provides a multi-directional climbing experience, allowing users to climb up the pyramid while developing strength, coordination, and balance. The structure allows free movement between ropes and encourages children to explore and overcome various physical challenges. It's suitable for children of different ages and is designed to offer a challenging and enjoyable play experience in the playground.

Ages 5-12

Users 21

Dimensions L: 13'-10.3" W: 15'-11.2" H: 9'-6.8" | cm L: 433 W: 498 H: 299

Safety Zone 33'-9.9"/31'-9.5" | cm 1028.7 / 922

Fall Height 6.4' | 200 cm

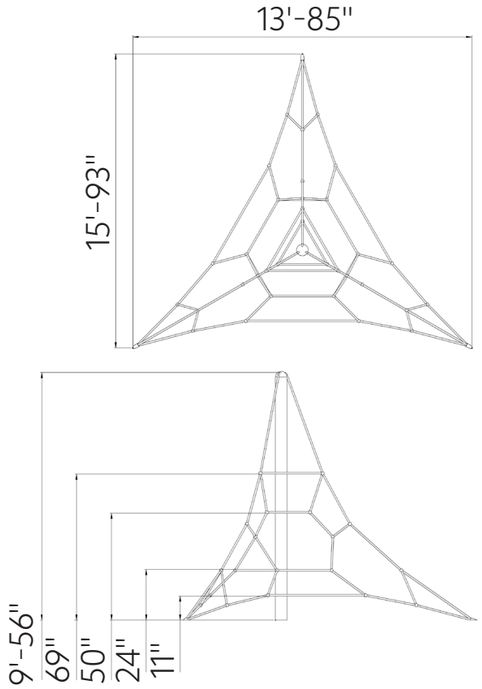

Accessible

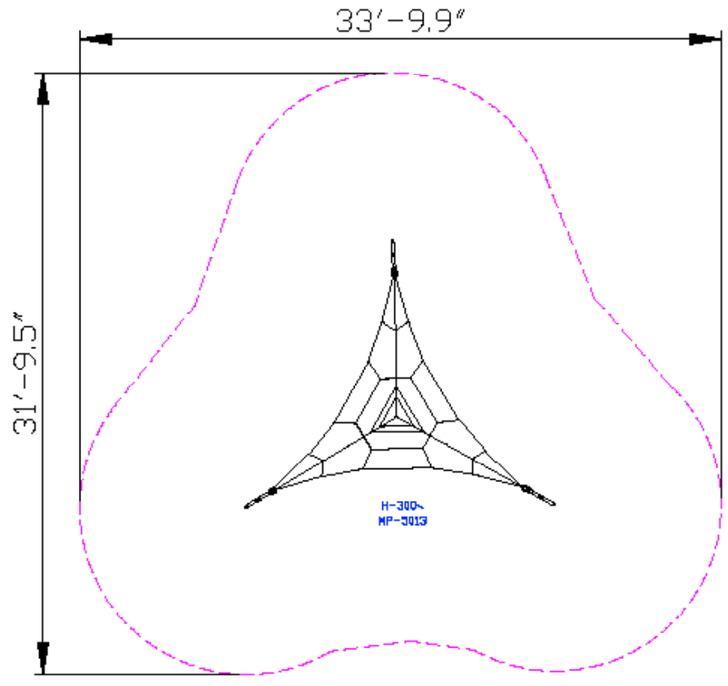

Motor Development

Foot-eye coordination - Improving coordination and balance through various equipment. Hand-eye coordination - Developing coordination and precision in activities .requiring fine motor skills

Physical Development

Climbing - Strengthening arm and leg muscles, developing fitness and endurance Balancing- Improving .balance and posture

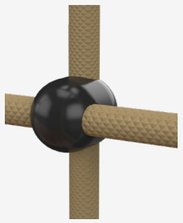

Rope Cables

Rope Cables are made of synthetic polypropylene (PP) fibers combined with a galvanized steel core for improved strength and durability. They meet strict standards, such as ASTM A240 and EN 10088, ensuring durability and safety for use in playground equipment. . The cables offer a soft and pleasant touch that does not harm the hands during use and are available in various diameters and colors, allowing for creative and aesthetic design.

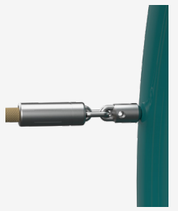

Steel

Steel structure that is strong and durable, oven-painted galvanized and coated with lead-free polyester powder for corrosion and rust resistance. The steel meets strict EN 1176 standards, ensuring high quality and safety. The steel is anti-vandalistic, requires minimal maintenance, and is fully recyclable. The high-quality paint ensures weather resistance and maintains a new appearance over time.

Connectors

The connectors in our play structures are designed to securely and safely join parts of the structure. They are made of durable and high-quality materials, ensuring long-term durability without wear.
