Safety Zone 25'-4.8"/23'-1.7 | 774 / 701 cm

Fall Height 1'-11" | 60 cm

Accessible

The Macchiato toddler play system is specially designed for toddlers, providing easy access for  young children and those with special needs. The structure includes a small ramp, a play panel, and a slide, all in a classic and natural wood design that enhances the connection to the natural world.

## Robinia Wood

European Robinia wood is natural, robust, and durable, particularly suitable for use in outdoor playground equipment. It complies with stringent standards such as FSC, has a smooth and pleasant touch, a natural and authentic appearance, and integrates well with natural surroundings. Its high durability, long lifespan, and being a natural and safe material make it a popular choice for use in playground equipment.

## Toddler Slide

The toddler slide provides a safe and enjoyable sliding experience for little ones. It develops coordination, movement, balance, and self-confidence for young players.

## Accessible Stairs

The high-durability stairs provide easy and safe access to the play structure, with a non-slip surface to prevent falls. Climbing and descending the stairs help players develop physical skills such as strength, coordination, and balance. The stairs also encourage independence and self-confidence as players learn to navigate heights and new tasks. Suitable for transfer accessibility to ensure convenient and safe access for players with disabilities, including smooth transitions from a wheelchair to the play structure and back.

## Play Panel

The play panel provides a variety of interactive play options that develop players' motor and cognitive skills. Each panel offers a unique activity that stimulates thinking and encourages players to learn and discover more.

**Motor Development**

Foot-eye coordination - Improving coordination and balance through various equipment.

**Cognitive Development**

Spatial awareness- Improving the ability to understand and navigate space through mazes and courses.

**Emotional Development**

Perseverance- Encouraging perseverance and repeated attempts. Achievement- Developing a sense of accomplishment and satisfaction from success in challenging equipment.

**Social Development**

Communication- Developing effective and clear communication skills with playmates.

**Physical Development**

Crawling - Strengthening abdominal and back muscles, improving coordination and flexibility. Sliding - Strengthening leg and arm muscles and improving coordination.
