Fairy Tale Chariot - Robinia B

Carriage & Horses Play Structure - Robinia Wood

:Steel

:Rope Cables

:Robinia Wood

Climbing

Sliding

Ages 2-12

Users 20

Dimensions L: 309" W: 118" H: 114" | L: 785 W: 303 H: 290 cm

Safety Zone: 37'-8.3" / 21'-10.9" | 1149 / 668 cm

Fall Height 1'-9.6" | 60 cm

Accessible

The Fairy Tale Chariot - Robinia B is a magical wooden play structure that invites children into a world of imagination and distant journeys. Designed as an antique-style wooden carriage with a curved roof and impressive side wheels, it evokes a charming rural adventure full of discovery.

At the front of the carriage, a gentle slide offers a smooth and enjoyable descent, as if stepping out of a traveling wagon into a new landscape. At the rear, a striking row of wooden horses with playful manes appears to pull the carriage forward. Connected by ropes, they enhance the authentic feeling of an old-fashioned journey along winding roads.

The horses also serve as climbing and seating elements, allowing children to sit, climb, or imagine themselves riding through open fields in full gallop. This combination of movement, storytelling, and physical activity creates a rich, safe, and immersive play experience inspired by rustic fantasy and travel adventure.

Robinia Wood

European Robinia wood is natural, robust, and durable, particularly suitable for use in outdoor playground equipment. It complies with stringent standards such as FSC, has a smooth and pleasant touch, a natural and authentic appearance, and integrates well with natural surroundings. Its high durability, long lifespan, and being a natural and safe material make it a popular choice for use in playground equipment.

Steel

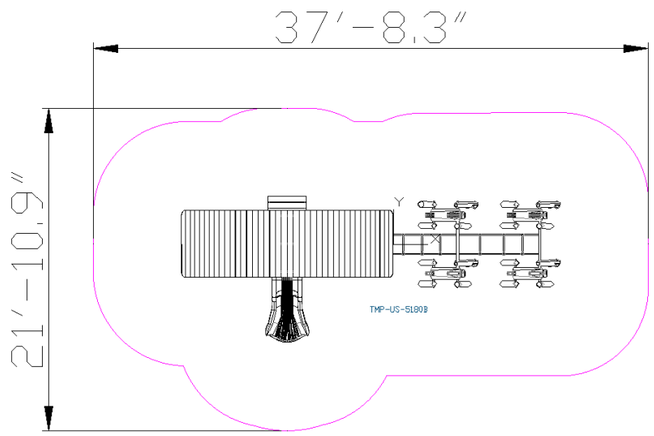

Steel structure that is strong and durable, oven-painted galvanized and coated with lead-free polyester powder for corrosion and rust resistance. It meets strict playground equipment standards such as ASTM A240 and EN 10088, ensuring high quality and safety. The steel is anti-vandalistic, requires minimal maintenance, and is fully recyclable. The high-quality paint ensures weather resistance and maintains a new appearance over time.

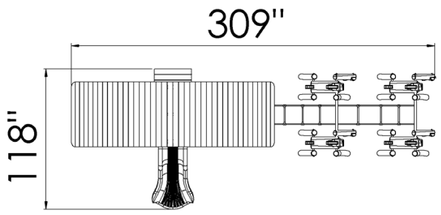

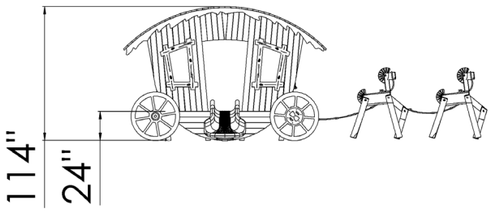

Rope Cables

Rope Cables are made of synthetic polypropylene (PP) fibers combined with a galvanized steel core for improved strength and durability. They meet strict standards, such as ASTM A240 and EN 10088, ensuring durability and safety for use in playground equipment. . The cables offer a soft and pleasant touch that does not harm the hands during use and are available in various diameters and colors, allowing for creative and aesthetic design.

Hand and Foot Holds

Hand and foot holds provide support during play and use of the structure. Players develop their strength and coordination while maintaining stability and security.

Robinia Horse

A horse-shaped play element that invites children to climb onto and sit on its back while holding onto the structure. Its figurative form encourages imaginative and role-play activities, allowing children to create play experiences inspired by riding and adventure. Climbing and sitting on the element contribute to the development of balance, coordination, gross motor skills, movement planning, and confidence in movement.

Rope Ladder

The rope ladder provides vertical access to the play structure and encourages players to develop physical skills such as strength, coordination, and balance. Climbing the rope ladder strengthens hand and leg muscles and develops a sense of balance. The ladder encourages players to face challenges and develop flexibility and agility.

Hand and Foot Holds

Hand and foot holds provide support during play and use of the structure. Players develop their strength and coordination while maintaining stability and security.

Motor Development

Hand-eye coordination - Developing coordination and precision in activities requiring fine motor skills. Foot-eye coordination - Improving coordination and balance through various equipment.

Sensory Development

Touch development - Diverse sensory experiences through different materials and textures. Vision development - Rich visual experiences through vibrant colors and shapes.

Cognitive Development

Concentration - Developing the ability to focus and maintain attention in equipment requiring concentration. Creativity - Developing creative thinking and imagination in open and interactive play.

Emotional Development

Courage - Facing fears and new challenges. Confidence - Building self-confidence and belief in one's personal abilities. Patience - Practicing patience and waiting for one's turn. Achievement - Developing a sense of accomplishment and satisfaction from success in challenging equipment.

Social Development

Cooperation - Encouraging joint work and reaching shared goals. Communication - Developing effective and clear communication skills with playmates. Respect for boundaries - Learning the importance of respecting personal and social boundaries. Friendship creation - Creating friendships and strengthening social bonds.

Physical Development

Climbing - Strengthening arm and leg muscles, developing fitness and endurance. Sliding - Strengthening leg and arm muscles and improving coordination.
