Ages 5-12

Users 2

Dimensions L: 150" W: 20" H: 110" | L: 380 W: 50 H: 280 cm

Safety Zone: 24'-3.9" / 14'-0.5" | 741 / 428 cm

Fall Height 6'-5.6" | 200 cm

Accessible

The Chandelier C is a unique robinia wood structure combined with strong rope elements, offering an exceptional shared swinging experience. Its design features a central rocking beam with a seat at each end for children, creating a dynamic motion driven by mutual cooperation.

The movement is generated through interaction and coordination between the children, encouraging communication, teamwork, timing, and shared decision-making throughout play.

This structure supports the development of balance, core muscle strength, and spatial awareness, while also enhancing children's ability to regulate movement in space. Its natural, clean design blends seamlessly into both green and urban environments, creating a harmonious and inviting play element for any setting.

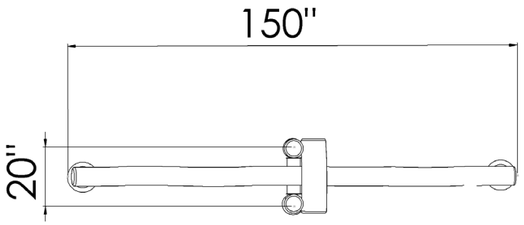

Robinia Wood

European Robinia wood is natural, robust, and durable, particularly suitable for use in outdoor playground equipment. It complies with stringent standards such as FSC, has a smooth and pleasant touch, a natural and authentic appearance, and integrates well with natural surroundings. Its high durability, long lifespan, and being a natural and safe material make it a popular choice for use in playground equipment.

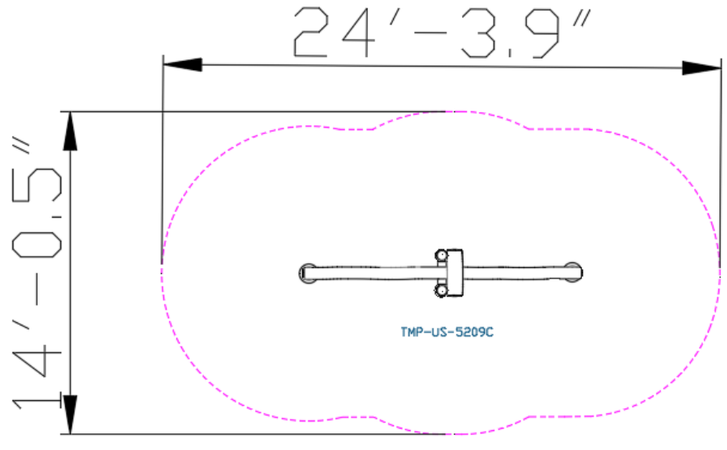

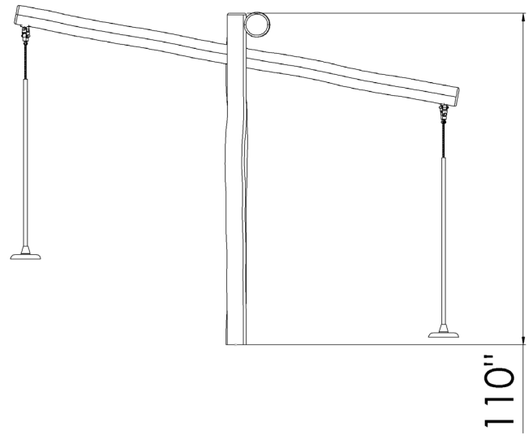

Steel

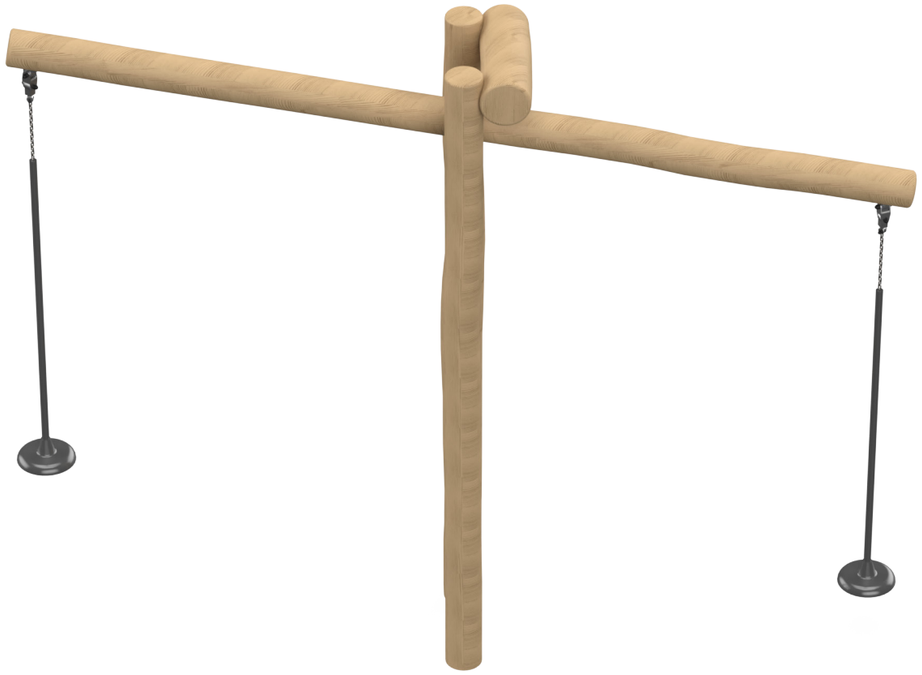

Steel structure that is strong and durable, oven-painted galvanized and coated with lead-free polyester powder for corrosion and rust resistance. It meets strict playground equipment standards such as ASTM A240 and EN 10088, ensuring high quality and safety. The steel is anti-vandalistic, requires minimal maintenance, and is fully recyclable. The high-quality paint ensures weather resistance and maintains a new appearance over time.

Motor Development

Hand-eye coordination - Developing coordination and precision in activities requiring fine motor skills. Foot-eye coordination - Improving coordination and balance through various equipment.

Sensory Development

Touch development - Diverse sensory experiences through different materials and textures. Vision development - Rich visual experiences through vibrant colors and shapes.

Cognitive Development

Concentration - Developing the ability to focus and maintain attention in equipment requiring concentration. Regulation of force - Developing the ability to apply the right amount of force according to the activity. Curiosity - Encouraging exploration and discovery through equipment providing new and unfamiliar experiences.

Emotional Development

Courage - Facing fears and new challenges. Confidence - Building self-confidence and belief in one's personal abilities. Independence - Developing independence and the ability to make personal decisions. Achievement - Developing a sense of accomplishment and satisfaction from success in challenging equipment.

Social Development

Respect for boundaries - Learning the importance of respecting personal and social boundaries. Friendship creation - Creating friendships and strengthening social bonds.

Physical Development

Climbing - Strengthening arm and leg muscles, developing fitness and endurance. Hanging - Strengthening arm, back, and shoulder muscles. Balancing - Improving balance and posture.
