Log Pile - Robinia

Log Pyramid - Robinia

:Robinia Wood

Balancing

Climbing

Hanging

Ages 2-5

Users 5

Dimensions L: 36" W: 44" H: 83" | L: 112 W: 91 H: 210 cm

Safety Zone: 14'-10.8" / 14'-7" | 454 / 444 cm

Fall Height 1'-9.6" | 60 cm

Accessible

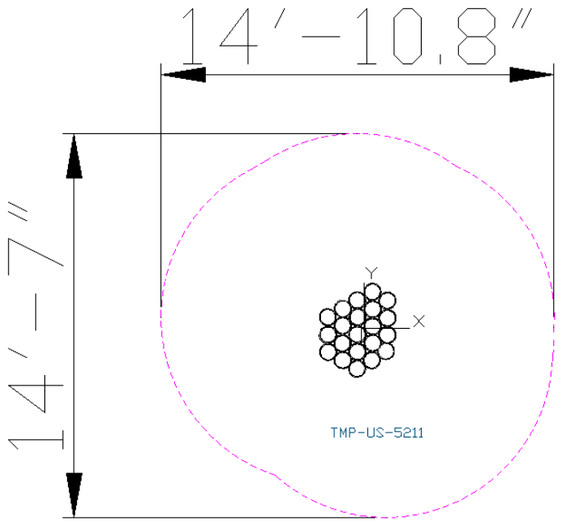

This climbing element is designed as a group of natural-looking log forms, inviting children to challenge their balance and coordination skills. The tiered structure allows movement, jumping, and climbing between logs positioned at varying heights, supporting the development of stability, movement confidence, and route-planning abilities during play.

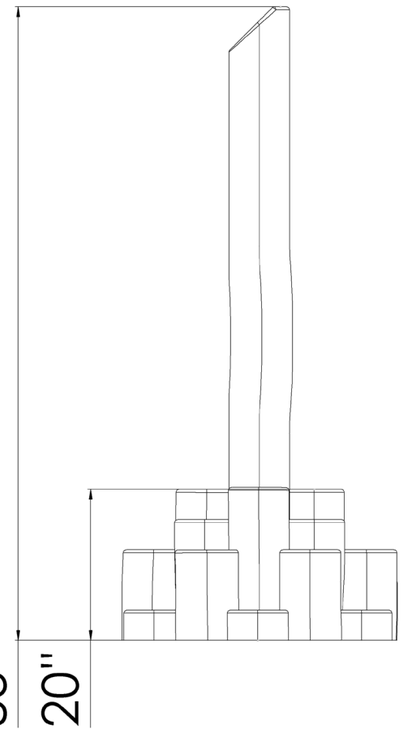

Inspired by natural environments, the design blends seamlessly into playgrounds and open spaces, encouraging free movement, imaginative play, and exploration. It is well-suited for inclusion in adventure trails, balance zones, or as part of a nature-oriented play environment that emphasizes physical activity and environmental discovery.

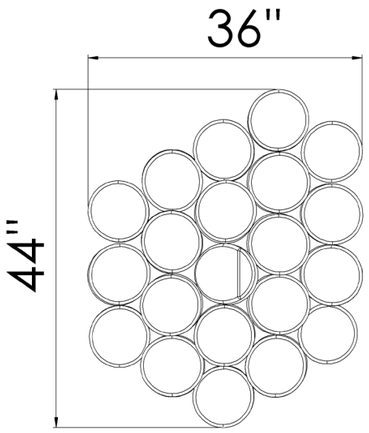

Robinia Wood

European Robinia wood is natural, robust, and durable, particularly suitable for use in outdoor playground equipment. It complies with stringent standards such as FSC, has a smooth and pleasant touch, a natural and authentic appearance, and integrates well with natural surroundings. Its high durability, long lifespan, and being a natural and safe material make it a popular choice for use in playground equipment.

Motor Development

Hand-eye coordination - Developing coordination and precision in activities requiring fine motor skills. Foot-eye coordination - Improving coordination and balance through various equipment.

Sensory Development

Touch development - Diverse sensory experiences through different materials and textures. Vision development - Rich visual experiences through vibrant colors and shapes.

Cognitive Development

Concentration - Developing the ability to focus and maintain attention in equipment requiring concentration. Regulation of force - Developing the ability to apply the right amount of force according to the activity. Curiosity - Encouraging exploration and discovery through equipment providing new and unfamiliar experiences.

Emotional Development

Courage - Facing fears and new challenges. Confidence - Building self-confidence and belief in one's personal abilities. Independence - Developing independence and the ability to make personal decisions. Achievement - Developing a sense of accomplishment and satisfaction from success in challenging equipment.

Social Development

Respect for boundaries - Learning the importance of respecting personal and social boundaries. Friendship creation - Creating friendships and strengthening social bonds.

Physical Development

Climbing - Strengthening arm and leg muscles, developing fitness and endurance. Hanging - Strengthening arm, back, and shoulder muscles. Balancing - Improving balance and posture.
