Safety Zone: 25′-9.3″ / 16′-6.4″ | 786 / 504 cm

Fall Height 1′-6.4″ | 50 cm

This modular ninja-style system enables the creation of a dynamic and versatile obstacle course. Each element along the route functions as an independent challenge station, inviting users to test strength, agility, balance, and coordination in a ninja-inspired training experience.

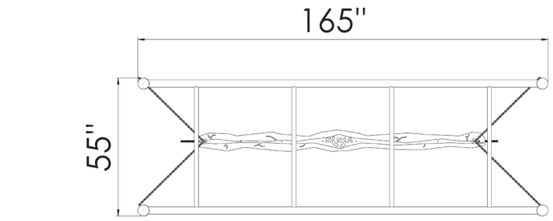

The system is composed of a wide variety of elements designed for hand, leg, and climbing challenges, including grip rings, horizontal ladders, traversal obstacles, climbing walls, and balance elements. Each component offers a distinct movement experience while collectively forming a continuous and engaging course progression.

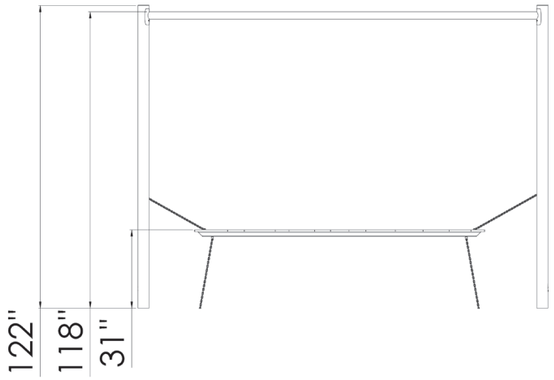

Clients can select the composition and sequence of elements, allowing for a fully customized ninja course with adjustable difficulty levels. The combination of features creates a challenging, dynamic, and engaging environment that develops physical strength, movement control, and the resilient spirit associated with ninja-style training.

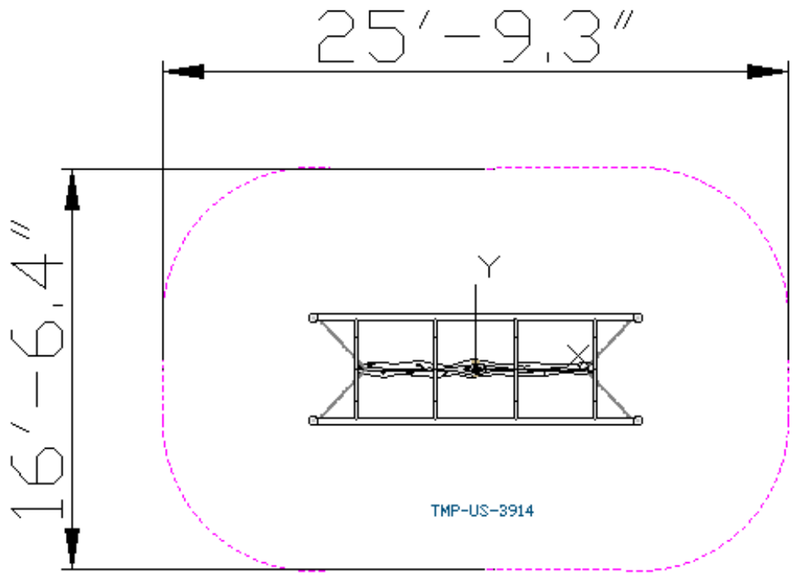

Steel

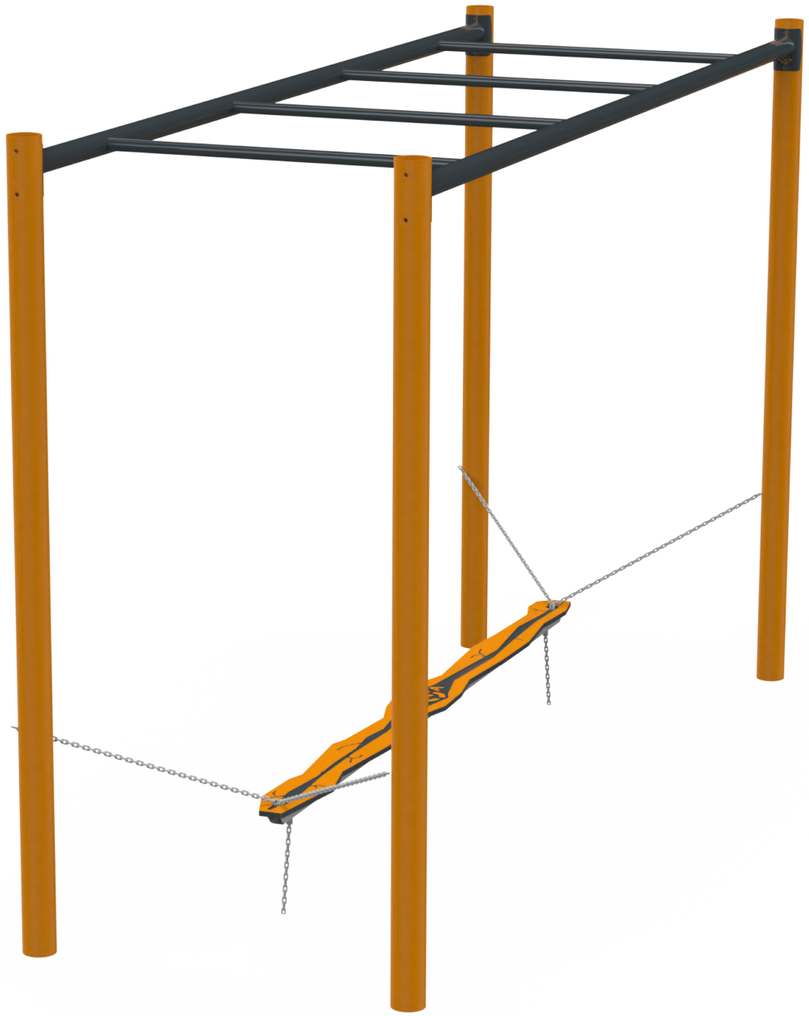

Steel structure that is strong and durable, oven-painted galvanized and coated with lead-free polyester powder for corrosion and rust resistance. It meets strict playground equipment standards such as ASTM A240 and EN 10088, ensuring high quality and safety. The steel is anti-vandalistic, requires minimal maintenance, and is fully recyclable. The high-quality paint ensures weather resistance and maintains a new appearance over time.

Motor Development

Hand-eye coordination - Developing coordination and precision in activities requiring fine motor skills. Foot-eye coordination - Improving coordination and balance through various equipment. Core muscle strengthening - Strengthening abdominal and back muscles through challenging equipment.

Cognitive Development

Concentration - Developing the ability to focus and maintain attention in equipment requiring concentration. Regulation of force - Developing the ability to apply the right amount of force according to the activity.

Emotional Development

Courage - Facing fears and new challenges. Confidence - Building self-confidence and belief in one's personal abilities. Independence - Developing independence and the ability to make personal decisions. Patience - Practicing patience and waiting for one's turn. Initiative - Encouraging initiative and taking an active role in play. Perseverance - Encouraging perseverance and repeated attempts. Achievement - Developing a sense of accomplishment and satisfaction from success in challenging equipment.

Social Development

Communication - Developing effective and clear communication skills with playmates. Respect for boundaries - Learning the importance of respecting personal and social boundaries.

Physical Development

Climbing - Strengthening arm and leg muscles, developing fitness and endurance. Hanging - Strengthening arm, back, and shoulder muscles.
