Robinia Stumps B - XL Log Trail

:Robinia Wood

Climbing

Jumping

Ages 2-12

Users 12

Dimensions L: 245" W: 29" H: 39" | L: 624 W: 73 H: 98 cm

Safety Zone: 33'-4.2" / 14'-9" | 1019 / 449 cm

Accessible

This play structure is built from natural robinia wood and offers children an engaging experience of walking across log elements at varying heights. The trail challenges children to maintain balance while moving, encouraging the development of motor skills and physical coordination in an intuitive and natural way.

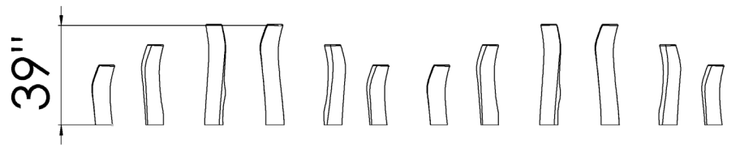

The organic design blends seamlessly into outdoor environments, creating a natural-looking play feature that invites children to embark on a small adventure in an open-air setting.

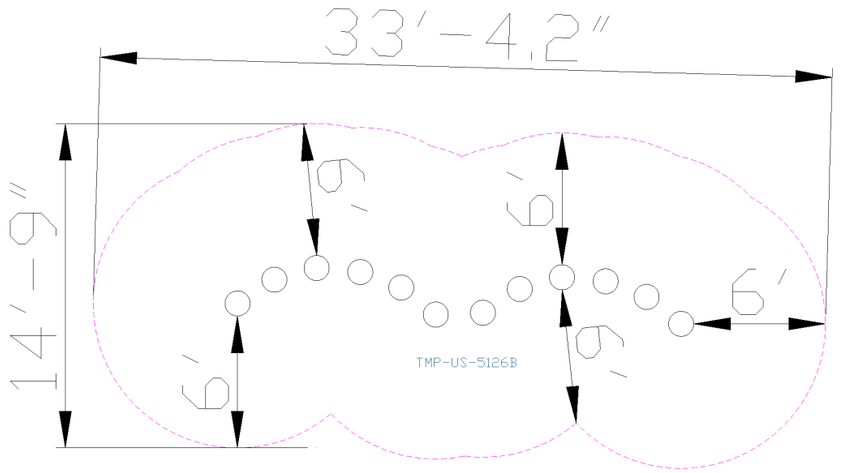

Robinia Wood

European Robinia wood is natural, robust, and durable, particularly suitable for use in outdoor playground equipment. It complies with stringent standards such as FSC, has a smooth and pleasant touch, a natural and authentic appearance, and integrates well with natural surroundings. Its high durability, long lifespan, and being a natural and safe material make it a popular choice for use in playground equipment.

Motor Development

Hand-eye coordination - Developing coordination and precision in activities requiring fine motor skills. Foot-eye coordination - Improving coordination and balance through various equipment.

Emotional Development

Imagination - Encouraging imagination and creating play worlds. Courage - Facing fears and new challenges. Confidence - Building self-confidence and belief in one's personal abilities. Perseverance - Encouraging perseverance and repeated attempts.

Social Development

Respect for boundaries - Learning the importance of respecting personal and social boundaries. Friendship creation - Creating friendships and strengthening social bonds.

Physical Development

Climbing - Strengthening arm and leg muscles, developing fitness and endurance. Jumping - Improving leg strength and balance.
